To All Earnest Socialists.

There is about to close one of the most remarkable campaigns ever fought in Clackamas county. The socialist p rty has put full ticke in the field for the first time in this county and state. Our party has grown wanderfully during the last few weeks. It is a fact that our party has the only principles which will remedy the evils that we are complain-

Everybody is talking about socialism The world is listening and longing for the dawn of that bright m rn when the o-operative commonwealth shall have

All earnest socialists have a stern duty to perform next Monday. Go to the polls; remain there all day, and work faithfully for our node cause. No true socialist should sup; ort a single man on either the republican or 'citizens ticket. Vote for our owe men; the men who stood firmly for our principles. Let no ists triumphantly march on to victory. Remember that a vote for a principle is FRED J. MEINDL.

Capitalism and Socialism. Capitalism increases itself off the produce f the p-ople until they are too poor to buy what they produce. India is starving in the presence of walled-up and plentiful food supplies. Thousands of our own American laborers working from early morning until dark cannot al-ford to buy meat for food, while the

meat trust only pays a small price to the producer This is a monument of the capitalistic order.

Thus tarlyle said, "England was making new markets while the millions of men, women and children of London, who made the clothes, went with bare-backs, because they had nothing where-with to buy the clothes to wear, but clothes for the increase of capital.

The capitalistic orders of America has debauched the conscience of the whole nation and used its government to betray and conquer weaker people, in or-der to find markets for the produce of the dwarfed, struggling and blighted lives of the laborers who cannot buy what they produce. Civilization of the twentieth century!

A civilization built upon fraud and force,

We build on a sure foundation only when we build a system that has for its end the commonwealth, the common freedom, the common abundance and gladness of all men and women. Nature offers resources enough for abundance of life for countless millions of human beings who will never consent that their resources are appropriated by the few, by the exploitation of the many. Socialists are not appealing to you tor support on the ground that socialists are better than other men, but on the groun I that socialism will bring forth and educate the best that is in the man, while capitalism and competition are conservative. It comes not to destroy but to fulfill all the true ideals of order and liberty and prosperity. It offers that equality which must be the foundation of brotherhood. It comes not to destroy private property, for capitalism has already destroyed the possibility of the bulk of mankind ever becoming property owners; but it comes to place within the reach of every man that private property upon which he may stand and live a free and original life of his own, and express his noblest ideals of being.
