## Close Buying

I recently saw an eastern druggist's ad. which explains the pint regarding large buying and cash payment s much better than I ever have been able to do that I give the ad here exactly as it appeared:

"A certain patent medicine which is quoted at \$8.75 per dozen can be bought in 3 dozen lots at wholesale for \$7.50 per dozen. One gross (12 dozen) costs at wholesale \$6.75 per dozen. Then if spot cash is paid an additional 5 per cent. discount is allowed which brings the cost down in gross lots to \$6.41 per dozen. Small stores which buy in one-fourth and one-half dozen lots pay at wholesale \$8.75. We pay in gross lots \$6.41. Hence you see that we can sell at a profit for the price that the ordinary druggist has to pay his wholesaler for the goods."

This covers the situation so thoroughly that comment is unnecessary. However, I promise you if you come to me for all you drug store goods that at the end of the year you will find you have saved many dollars by trading at the store. where things are bought by the gross instead of by the dozen.

## READY FOR BIZ

Reliable Druggists New Drug Store

We beg to announce to the people of Oregon City and Clackamas County that we have opened a first-class Drug Store in this city, opposite I. Selling's, where we are making a specialty of preparing Physicians Prescriptions.

"Necessity is the mother of invention"--"Dissatisfaction the father of progress"--the enormous prices which the people of this vicinity have had to pay for Drugs, especially for filling prescriptions, has necessitated the opening of a New Drug Store where this work can be promptly and accurately prepared at a reasonable price.

It is a well known fact that we have always advocated a lower scale of prices for all Drugs and Medicines than has existed between the druggists of this town, consequently our advent into the Drug business has caused a great shaking and tumbling of high prices in patent medicines--although there has been a reduction of 10 to 50 per cent in some cases they are not yet low enough to meet our idea of modern Drug prices and down they go about 10 per cent lower.

Our fresh stock of Drugs is not to be compared with the old pioneer stock now offered in this town at clearance sale. However we will meet any cut made in the Drug Line, and in some cases can go a little lower than all other prices. Better trade where you know the stock is all fresh and pure.

Remember this is the only drug store which delivers all goods sold to any part of the city.
