Reliable Druggists **New Drug Store**

We beg to announce to the people of Oregon City and Clackamas County that we have opened a first-class Drug Store in this city, opposite I. Selling's, where we are making a specialty of preparing Physicians Prescriptions.

"Necessity is the mother of invention"—"Dissatisfaction the father of progress"—the enormous prices which the people of this vicinity have had to pay for Drugs, especially for filling prescriptions, has necessitated the opening of a New Drug Store where this work can be promptly and accurately prepared at a reasonable price.

It is a well know fact that we have always advocated a lower scale of prices for all Drugs and Medicines than has existed between the druggists of this town, consequently our advent into the Drug business has caused a great shaking and tumbling of high prices in patent medicines—although there has been a reduction of 10 to 50 per cent in some cases they are not yet low enough to meet our idea of modern Drug prices and down they go about 10 per cent lower.

Our fresh stock of Drugs is not to be compared with the old pioneer stock now offered in this town at clearance sale. However we will meet any cut made in the Drug Line, and in some cases can go a little lower than all other prices. Better trade where you know the stock is all fresh and pure.

Remember this is the only drug store which delivers all goods sold to any part of the city.

Another for Mr. Hanney.

A special representative of Eilers' Piano House, Portland's leading musical instrument dealers, who are doing such a remarkably large piano and organ business, has just delivered one of the beautiful Cabinet Grand Kimball pianos to J. R. Hanney, of this city. The instrument has a superb and most massive mahogany case, and is exactly similar to the style of the Kimball piano which took the first prize and gold medal at the recent Omaha Exposition. The Kimball, as is well known, won first honors at the Chicago World's Fair in 1893—At Buffalo the Kimball display attracted universally, favorable comment, but as only a few of the cheaper makes of pianos were on exhibition, the Kimball was placed for exhibition purposes only.
