

EYES SPEAK
Volumes, at times, of woman's happiness or misery. The dull, sunken eye, with its dark circles almost surely speaks of womanly ill-health, and its attendant sufferings.

Dr. Pierce's Favorite Prescription cures the diseases which undermine the health and mar the beauty of women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter free, and so obtain the advice of a specialist upon their disease. All correspondence is strictly private and is held confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

'Favorite Prescription' makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

50000,000,000,000

The multiplication of the microbe is marvelous. Competent authority asserts that one of these minute creatures will produce in one day, if the conditions are favorable, some sixteen millions of descendants, and in three days the production will approximate fifty trillions. We may compute the number but never comprehend it. We have no concrete measure for such figures. To apprehend in some measure the amazing rate and rapidity of microbe increase remember that in this twentieth century the population of the entire world is figured at less than one billion and a half.

The one emphatic point in this statement of marvelous multiplication is this: 'If the conditions are favorable.' The most dangerous microbe cannot injure man unless the conditions are favorable. It is conceded that we inhale these microbes every day without injury, that we receive them into the body with the water we drink and the food we eat and suffer no harm, the reason being that the conditions are not favorable to microbe propagation. It becomes a great question, therefore: What are the conditions favorable to the propagation of disease microbes in the human body? The answer is, unsanitary conditions. The same law rules the blood that rules the brook: keep it pure and it is healthful; let it stagnate and become fouled with decayed matter and it breeds disease. The prime necessity for microbe reproduction is dirt. Dirt has been defined as 'matter out of place.' The grease which collects in the kitchen sink is dirt, just as much as the dust which accumulates in unswep corners, and it seems perfectly proper in the scope of this definition to speak of dirty blood.

If you want to keep your blood in condition unfavorable to microbe multiplication, get rid of the dirt in your blood and keep rid of it. For it is, in effect, the clogging and effete substances that foul the blood, which form the breeding-ground of the disease microbe.

The best blood-purifying medicine, at any season of the year—spring, summer, autumn, winter—is Dr. Pierce's Golden Medical Discovery. You don't have to take it on trust. It has cured thousands of men and women of pimples, blotches, salt-rheum, tetter, rheumatism, ulcers, sores, scrofula, and other forms of blood disease, and cured them permanently.

'For about one year and a half my face was very badly broken out,' writes Miss Carrie Adams, of 116 West Main Street, Battlecreek, Mich. 'I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to anyone similarly afflicted.'

'I feel it my duty to write to you of the wonderful curative powers of your 'Golden Medical Discovery,' writes Geo. S. Henderson, Esq., of Denaud, Lee Co., Florida. 'I had a bad sore on my right ear and my blood was badly out of order. I tried local doctors but with no good results. Finally I wrote you the particulars in my case and you advised your 'Golden Medical Discovery,' which I began to take. From the first bottle I began to feel better, and when I had taken eight bottles the sore healed up. I wish you success.'

'For three years I have suffered with that dreaded disease eczema,' writes Mrs. J. Koepf, of Hermann, Oregon. 'I was told to try Dr. Pierce's Golden Medical Discovery, which I did, and after I had taken fourteen bottles I was permanently cured. It has been a year since I stopped taking your medicine and the disease has never appeared since. I think your medicine a wonderful cure, and hope others suffering as I did, will take it and be relieved of their suffering.'

'I will forever thank you for advising me to take Dr. Pierce's Golden Medical Discovery,' writes Mrs. Jas. Murphy, of Ponda, Pocahontas Co., Iowa. 'It has cured me of chronic scrofula of twelve years' standing. I had doctored for the trouble until I was completely discouraged. I also had chronic diarrhea for twelve years. I am in good health now—better than I ever was in my life, owing to Dr. Pierce's Golden Medical Discovery. I took several bottles of the 'Discovery' before I stopped.'

Dr. Pierce's Golden Medical Discovery, not only purifies the blood but by enabling the perfect assimilation of food increases the nutrition which is conveyed by the blood to every organ of the body, so producing vigorous and robust health.

Dr. Pierce's Pleasant Pellets assist the action of the 'Discovery.' Accept no substitute for 'Golden Medical Discovery.' There is nothing 'just as good' for diseases of the stomach, blood and lungs.

ONE CENT A DAY. Save one cent a day for thirty-one days and it will enable you to obtain the best modern medical work. Dr. Pierce's Common Sense Medical Adviser, containing more than one thousand large pages and over 700 illustrations, is sent FREE on receipt of stamps, to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper-covers. Address: Dr. R. V. PIERCE, Buffalo, N. Y.

Bright's Disease. The largest sum ever paid for a prescription, changed hands in San Francisco, Aug. 30, 1901. The transfer involved in coin and stock \$112,500.00 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases. They commenced the series investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to Aug. 25, eighty-seven per cent of the test cases were either well or progressing favorably. There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address John J. Fulton Company, 420 Montgomery St., San Francisco, Cal. Charman & Co. are our sole agents in Oregon City.
