since made her home. Her husband died about 11 years ago. He was a very prominent man in Clackamas county, and filled the positions of county clerk and postmaster of Oregon City. The funeral was held Friday afternoon, and the interment was in the family plot at Mountain View cemetery.

Through a fatal fault in a highly ornamental and useless law, Geer had himself nominated for United States senator as the republican candidate. The state convention of the party did not nominate him. He nominated himself as the republican candidate. His endorsement was made by democrats and Chamberlain republicans—renegade republicans—to annoy the republican party. No member of the legislature counts this so-called endorsement for aught. It means nothing and it will not influence one vote in his favor, which is all the proper thing.—Salem Sentinel.

Seaside Schedule.

Popular seaside schedule and round trip excursion rates via Astoria & Columbia River Railroad Co.

Beginning Saturday, July 5, the A. & C. R. R. & N. Co.'s steamers to and from North Beach points. In addition to this excellent service an additional local train will be run between Astoria and Clatsop Beach points, thus offering patrons of south beach unexcelled facilities for traveling between beach points.

The Parker "Lucky Curve" Fountain Pen

THE "LUCKY CURVE" not only feeds the ink perfectly to the point of the pen and in the exact quantity desired, but it drains the ink from the feed-channel back into the reservoir when the pen is carried in the pocket so that the owner will not be annoyed by wiping off the end of the fountain when he next uses the pen; or, failing to do so, having inky fingers. The "Lucky Curve" feature is patented and is used exclusively in the Parker.

THE SPRING LOCK makes possible the successful Parker jointless feature. This simple device displaces the old style screw nozzle, which is so liable to break at the point, in the pocket or out, if a little undue pressure is brought to bear.

ANTI-BREAK CAP. A unique improvement, looks like an ordinary cap, but the construction is extraordinary. The center of the cap on the inside is heavily reinforced where it comes in contact with the barrel. This cap is warranted against cracking or splitting for one year. It is not only more than five times as strong as any other cap, but it is exceedingly symmetrical and pleasing to the eye.

THE GOLD PEN. The gold pens used in the Parker "Lucky

Curve" Fountain Pen are the very best that skill and money can produce. They are 14k. fine, all tipped with first grade iridium. We warrant them perfect. With proper use they will, in connection with our fountain pen, last practically a life-time.

THE FOUNTAIN CASE. The fountain case itself is made from the finest quality of pure Para rubber, imported especially for use in Parker Pens.

With each Parker "Lucky Curve" we give a guarantee for one year.
