### AT THE TOP.

It is a laudable ambition to reach the top of the ladder of success. But many a man who reaches the topmost rung finds his position a torment instead of a triumph. He has sacrificed his health to success.

A man can succeed and be strong if he heeds Nature's warnings. When there is indigestion, loss of appetite, ringing in the ears, dizziness, spots before the eyes or palpitation of the heart; any or all of these symptoms point to weakness and loss of nutrition. Dr. Pierce's Golden Discovery cures diseases of the stomach and other organs of digestion and nutrition. By perfect and abundant nourishment distributed to each vital organ it enables the co-operation of all the organs to preserve the perfect health of the body.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 23 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food in my stomach for a long time; felt melancholy and depressed. Could not sleep nor follow my occupation. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

"The 'Common Sense Medical Adviser,' 1008 large pages in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y."

### Catarrhal Deafness.

Cannot be cured with local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the eustachian tubes. S. B. Catarrh Cure will reduce and cure all catarrhal inflammation of the eustachian tubes and restore them to a normal condition. Sold by all druggists. Book on Catarrh free. Address Smith Bros., Fresno, Cal.

### When Sickness Comes

to the head of the family—the bread winner, the omnipresent thought is "Have I safely provided for the wife and little ones?"

Nine times out of ten, "No" is the answer. It is then too late, however, to do anything. The essential thing to do is to prepare now for what may occur at any time. An investigation of the Massachusetts Mutual's new policies and bonds, will, without a doubt, bring to your notice a contract that will exactly suit your case.

## Scientific Dentistry

### Why Many Artificial Sets of Teeth Work Unsatisfactory

They are Not Constructed along Lines of Recent Scientific Investigations

SOME time ago it was discovered by Dr. W. I. Bonwell, a dentist, who has made many scientific investigations in relation to the human teeth, that the lower jaw forms an equilateral triangle, the base of which is distance from centre to centre of the condyles of the jaw, and the sides the distance from these points to the medium line of the inferior incisors. The sides of the triangle averaging about four inches. The centres of the tips of the anterior superior teeth are in the arc of a circle. A line at right angles to the medium line of the head which is known as the through the centres of the similar line parallel to the periphery of the circle, will bisect the second molar cusp and the anterior molar teeth forming secondary springs of Failure in the making is due to a lack of fact.
