### Fish Propagation.

Field Superintendent J. Nelson Wisner, Jr., of the United States fish commission, has completed his annual report showing the work of propagation accomplished during the fiscal year ending June 30, 1902, for Oregon and Washington streams. Last year no less than 31,610,409 Chinook salmon fry were planted in streams tributary to the Columbia and Willamette rivers.

Clackamas being the central station, all the work has been directed from that place. Besides 10,618,000 Chinook salmon eggs taken, brook trout, cut-throat trout, Eastern brook trout, rainbow trout, steelhead and whitefish were taken in large numbers.

At the Eagle creek sub-station 715,000 were collected, 598,868 of which were shipped to Little White Salmon and 26,000 to Tanner creek. The whole number collected was supplied from 146 females, and the season of taking the eggs lasted 17 days, from September 15 to October 1. The average daily take was 42,058. All the eggs taken at Eagle creek were sent to Little White Salmon and Tanner creek for distribution.

### Notice

Is hereby given that the board of county commissioners will receive sealed bids until noon, the 6th day of August, 1902, at the office of county clerk for a county physician who will be required to furnish all medicines and appliances, and perform all surgical operations for the county, prior for one year.

F. A. SLEIGHT, County Clerk.

### County Finances.

The report of the county clerk on July 1st gives the net indebtedness of county as \$92,421.96, by allowing all the delinquent back taxes at face value. It is well known that but a small per cent of these are collected after they get a year or so old. The county now has practically all its money for 1901 taxes, and the expenses are going along without any income, and about the first of the year will amount to nearly \$200,000 again. The amount drawn for month of June warrants to \$14,743.48. The facts are: On March 1st each year we are from \$180,000 to \$200,000 in debt. Two months later, after taxes are collected for the preceding year, we are about \$100,000 in debt and a year behind. Following is the clerk's statement on July 1st:

Liabilities—	
Warrants outstanding	\$111,839.64
Interest	10,020.00
	\$121,859.64
Resources—	
Cash in treasurer's hands	\$10,154.12
sheriff's	81.88
Delinquent taxes not paid, 1901	13,757.68
" " " 1900	1404.21
" " " 1899	2391.25
" " " 1898	1648.87
Net indebtedness	92,421.96
	\$121,859.64

The following sums were paid out of the different funds by the treasurer for the past 12 months:

Scalp bounties	\$ 2131.83
Special school fund	25,824.79
Oregon City special	8,337.97
General fund	119,329.37
County school	23,619.19
State fund	43,790.99
Road fund	48,270.66
Contingent fund	406.31
Institute fund	237.75
Indigent soldiers	618.00
State school	9180.50
Bicycle fund	407.75
	\$292,155.11

The total amount collected by sheriff during past year on taxes was \$144,617.96, but a little over half what was paid out. The state school fund and fees received from clerk and recorder help swell the receipts some.

The amount of warrants issued past 12 months was \$66,428.89 on county fund and \$31,749.43 on road fund, or a total of \$98,278.32.

### When Sickness Comes

to the head of the family—the bread winner, the omnipresent thought is "Have I safely provided for the wife and little ones?"

Nine times out of ten, "No" is the answer. It is then too late, however, to do anything. The essential thing to do is to prepare now for what may occur at any time. An investigation of the Massachusetts Mutual's new policies and bonds, will, without a doubt, bring to your notice a contract that will exactly suit your case.

If interested, send a postal, giving your name, address, occupation and date of birth, when an illustration will be sent you, showing EXACTLY what the company will do for you. No guess work about it, as the dividends are paid ANNUALLY and NOT withheld for twenty years or so, and then not paid unless the contract is in force at THAT TIME.

Manager Pacific Coast Dept., Chamber of Commerce, Portland, Or.

## The Parker "Lucky Curve" Fountain Pen

THE "LUCKY CURVE" not only feeds the ink perfectly to the point of the pen and in the exact quantity desired, but it drains the ink from the feed-channel back into the reservoir when the pen is carried in the pocket so that the owner will not be annoyed by wiping off the end of the fountain when he next uses the pen; or, failing to do so, having inky fingers. The "Lucky Curve" feature is patented and is used exclusively in the Parker.

THE SPRING LOCK makes possible the successful Parker Jointless feature. This simple device displaces the old style screw nozzle, which is so liable to break at the point, in the pocket or out, if a little undue pressure is brought to bear.

ANTI BREAK CAP. A unique improvement, looks like an ordinary cap, but the construction is extraordinary. The center of the cap on the inside is heavily reinforced where it comes in contact with the barrel. This cap is warranted against cracking or splitting for one year. It is not only more than five times as strong as any other cap, but it is exceedingly symmetrical and pleasing to the eye.

THE GOLD PEN. The gold pens used in the Parker "Lucky

Curve" Fountain Pen are the very best that skill and money can produce. They are 14k. fine, all tipped with first grade iridium. We warrant them perfect. With proper use they will, in connection with our fountain pen, last practically a life-time.

THE FOUNTAIN CASE. The fountain case itself is made from the finest quality of pure Para rubber, imported especially for use in Parker Pens.

With each Parker "Lucky Curve" we give a guarantee for one year.

Prices from \$2.00 to \$6.00

Other makes from \$1.00 up.
