Happy Time in Old Town.

"We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for Cuts, Corns, Burns, Bruises, Boils, Ulcers, Eruptions. Infallible for Piles. Only 25c at Geo. A. Harding's drug store.

### Old Age IS MADE Vigorous BY THE USE OF Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helplessly on the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—60 years. I owe it all to Doctor Pierce's medicines."

### The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by G. A. Harding.

### Catarrhal Deafness.

Cannot be cured with local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. ### ISOLATION OF ACTORS.

Conditions Which Make the Profession a World by Itself.

This condition, which from some important points of view is fortunate, from others unfortunate and from nearly all inevitable, is unique indeed. Here we have the only large class of workers which keeps the world at arm's length. Clergymen, physicians, lawyers, architects, merchants, tradesmen and laborers of all sorts, by the very terms of their toil are brought into constant personal contact with parishioners, patients, clients or customers. Even painters and sculptors must needs be in touch with their patrons.

But that this impassable row of blazing kings separates the front of the stage from the audience what the great wall of China was built to accomplish. Behind them is the sole "profession." In front of them the barbarous laity. If the player desired to break down the partition, he would scarcely be able to do so.

From the more important social gatherings which take place in the evening both actress and actor are necessarily absent. The actor may vote if he can acquire a residence and contrive to be in his own city on election day, but it is impossible that he should take any active part in politics or participate in preliminary meetings, caucuses and rallies which are held at night, and as to attendance at church, the difficulty, inseparable from his wandering life of making a connection with a parish and, besides, in recent years, is almost constantly required to travel on Sunday, passing from a Saturday evening's performance in one town to a Monday morning's rehearsal in another.—Atlantic Monthly.

### Oxford and American Students.

Oxford is far from being the most progressive of the world's colleges. It is the intellectual center of all that is undemocratic. It is the bulwark of the British aristocracy, the foe of religious freedom. It is absurd to suppose that this ancient institution, with its 3,000 students, will be much affected by the influx of a hundred callow American boys. On the contrary, the stamp that Oxford will put upon its American students will, we sincerely believe, render them unfit for a useful career as citizens of the United States. A postgraduate course in Europe may be all right, but a British education for an American life is not.—San Francisco Argonaut.

### Florida Everglades.

Scientists claim that the soil of the everglades in Florida is the richest in the world and would, if drained, produce marvelous crops of nearly any thing planted. It is proposed to reclaim this immense tract, which covers nearly 4,000 square miles, by building drainage canals to take off the water and at the same time serve as a means of transportation between plantations. Contrary to the general belief, the everglades are healthful, the water is sweet and pure, and there is almost a total absence of fevers and epidemic diseases.

### Impure Drinking Water

is always a source of danger; dysentery and bowel troubles follow its use; every person should have handy a bottle of Fainkiller (Perry Davis'), which will quickly cure these distressing ailments. Be careful and see that the storekeeper does not pawn off some worthless substitute upon you as is sometimes done for the sake of a few cents extra profit. Large bottles 25 and 50 cents.

### Catarrh of the Bladder
