A Letter Frem Litchfield, Neb.

Thomas Clancy, of Litchfield, Neb. wrote us a few weeks ago about his ex-perience with Dr. Gunn's Blood and Nerve Tonic. For 20 years I had been a sufferer from bronchial troubles accompanied with a backing cough. I at times suffered from extreme nervous prostration. The florin, one of the most famous of modern coins, originated in Florence. Some say that it gave the name to the city, while others assert that it was first so called because it had on it a flower-de-luce, from the Italian florone, or "flower," for the same reason that an English silver piece is called a "crown," or certain goldpieces in France indifferently a "napoleon" or a "louis," or the ten dollar goldpiece in

America an "eagle." Two countries, Austria and Holland, have retained the florin as a unit of monetary value, taking it at a time when it was very universal in Europe, its usage having been rendered general by the financial supremacy of the little tries of the continent.

In the year 1859 a snowstorm swept over New York on the 5th of July. It was Monday, and the fireworks, which were then set off in front of the city ball in celebration of the glorious Fourth, had been kept over from Saturday. I suffered from nervousness, female weakness and rheumatism, and I suffered everything one could suffer from these complaints. Lite was a burden, I doctored with three different physicians and got no relief. I tried several patent modicines, all with the same result. I began to get worse, and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and concluded to try the above remedies. I feel that I would never have been able to endure my confinement had it not been for the help I received from Dr. Pierce's medicines.
