You Get What You Ask For

WHEN you come to us and ask for a bottle of Hood's Sarsaparilla, we don't try to sell you Blue Seal, Roaring Lion or some other inferior substitute on which we make a larger profit.

Almost every patent medicine in the market today is being imitated, and you will find some unscrupulous druggists always trying to sell you the counterfeit instead of the genuine. Not so with us. We give you what you ask for. Beware of the druggist who tries to sell you the imitation. If he would substitute on a patent medicine what would he do with your prescriptions?

In filling your prescriptions we compound them carefully and accurately, just as written. We have no stale drugs in our store. Our long experience in the prescription business well qualifies us for the work.

Death of Alfred Nicholas.

On Friday last at 11 o'clock there died Highland, Alfred Nicholas. He had been suffering for a long time with a bad form of neuraxia and, while his death was hardly expected so soon, the end was thought to be rapidly approaching.
Mr. Nicholas was born in Pennsylvania about 65 years ago. At three years of age he moved with his parents to Missouri and at the age of 30 came to Clackamas county, Oregon. Here he raised a family of four children, two of whom are now dead. The two remaining children are Frank Nicholas and F. G. Nicholas, both of whom reside on the Nicholas ranch at Highland. Besides these two young men he leaves a wife to mourn his departure.
The funeral occurred Saturday morning in Highland and the remains laid to rest in the Ringo cemetery at Clarks.

A Large Fill.

Work has commenced on the big fill north of town. The fill is to take the place of the long trestle on the electric line between the Clackamas river and Oregon City. The trestle has long proved to be a source of uneasiness to passengers as well as an expense to the company, and it is decided to dispense with this high, dangerous structure and put in its place an embankment of earth. The earth will be excavated from Milwaukie Heights and brought in cars over the electric line. A special side track is now in the process of construction running parallel with the main track over the trestle. On this side track the earth will be drawn and dumped underneath until the required height is obtained. This work will probably require 90 days for its completion, and many men must be employed.

Clerk of District No. 15, Beaver Creek, Oregon.

Big Figures.

100,000,000 bottles of Perry Davis' Painkiller sold in 60 years. Just think! Nearly enough placed end to end to reach around the world. What other remedy can boast such a record of services to humanity in curing stomach and bowel complaints, and the many other ailments and accidents constantly occurring even in the most careful homes? There is only one painkiller, Perry Davis'. Beware of imitations.

Of Interest to Investors.
