A Change

In the medicine is so often ordered that you sometimes doubt the ability of the physician to properly treat the patient, when if the truth was known the fault is with your druggist and not the doctor. You become tired and restless waiting for a change for the better to take place, until in your anxiety you order a change of doctors, when in the majority of cases a change of druggists would be more beneficial to the sick one.

When your physician tells you the medicine don't have the desired effect, ask him to allow you to have us prepare the medicine and note the result.

We accurately compound the prescriptions of all physicians, no matter how complicated. We do the work ourselves and don't turn them over to an inexperienced assistant to fill.

Thursday morning's train, south bound, was crowded with hop pickers. Not only were the aisles jammed but people stood on the steps and platform. The baggage car was full before half the trunks and camping outfits had been put aboard, and as the train pulled out more wagons loaded with tents and trunks came in.

A gang of men are busily engaged straightening the bents on the S. P. trestle leading into town from the north side. A strange feature about trestles, and one which old contractors do not understand, is their tendency to lean up hill. The trestle is inclining up the hill considerably and the carpenters are readjusting the timbers and replacing old with new ones.

Much trouble is encountered on getting into the hop yards by way of the boats, as the water is so low. Some of the passengers were obliged to leave the boat one day this week, and take passage on the train, some of them getting discouraged with their slow progress, abandoned the trip altogether and returned home. The water is at a lower stage than ever before at this time of the year.

Mr. E. B. Tree who owns an interest in the Oregon City machine shop, has invented a very valuable little engine of 7 1/2 horse power. The engine when in running order at full state weighs only about eighty pounds and occupies about two feet of space, and at the same time does more work and at much less expense than any other ordinary engine of the same power. Mr. Tree has an order for four more, from some house in Seattle and is now making them. He has a patent on this ingenious piece of machinery and will find a ready sale for all he can make. The machine has not been run here yet, but will be steamed up in a few days, when he will give a more detailed disclosure of its merits.

We are to have in Oregon City in a large tent on Friday, Sept. 5, Warren & Day's spectacular \$10,000 production of "Uncle Tom's Cabin". This attraction is classed as one of the biggest scenic productions the American stage has ever seen, it being necessary to utilize two special cars to transport the scenery and equipments. No such amount of money as Warren & Day have spent on their production has ever before been spent on this much neglected and abused but still most successful of American dramas. The company carries two bands, ponies, horses, donkeys, traps and numerous novelties, and gives the most elaborate and largest street parade ever attempted by a theatrical company. B. W. No Substitute Wanted.

No! I did not ask for a bottle any cheaper, or twice as large, or one made by yourselves. I did ask for and will not have any substitute for Perry Davis' Painkiller; I have used it, my father used it, and I would not be surprised if my grandparents did so too; there is no limitation that can equal it. That I am sore of—for stomach ache.

DEAD DRUGS

If you stop to think about it you will understand that drugs can lose all their life and power. All the physicians skill and all the druggist's accuracy can avail you nothing with dead drugs. Dead drugs are really dead stock. Dead stock means dull trade. If you are a customer of this store you know it's never dull here. Our business wouldn't let us accumulate dead stock if we tried—and we are not trying. If you want live drugs come to a live store.

The carpenters are making it a little inconvenient for you this week—but we're trying to make up for it by special prices on most all lines of goods. It will pay you to put up with some inconvenience.
