The freight trains on the Southern Pacific are carrying more freight this season than usual. Wednesday morning the 7 o'clock train was nearly a quarter of a mile long and every car loaded down, two engines were drawing her into town and it required all they could do to make her go.

Tom Kelland while driving a heavily laden wood wagon near New Era Tuesday morning was jolted off and fell under the wagon; he managed to get out but his arm which was run over is broken and badly bruised. The unfortunate lad was hastily brought to this city and surgical aid immediately given. He is still suffering greatly.

Leighton Kelly, who has been working faithfully in the United States fish industry for some time has been recognized by the promotion to the United States Car Messenger Service. This is a responsible place requiring him to travel throughout the United States distributing eggs and small fry. He will hardly start immediately on his trips but may receive the call at any time.

John Shannon, road supervisor of the Beaver Creek district was in the city Wednesday. Mr. Shannon came direct from the burned section in and around Shubel, and he says it is the worst calamity that has befallen his neighborhood for many years, and says that a number of families have no place left, and, but for their friends, would be almost in dire need.

Tuesday's fire, which started either on the place of Farmer Davis or somewhere else—reports differ—swept away the house of Mr. Roberts and in addition the fencing of William Dixon in addition to his granary and its contents. Both Mike Moeheke and Ed Hornshuh lost all their buildings, the latter only saving his hog pen. Altogether, it is claimed, 13 barns were destroyed.

Married, Mr. John A. Blake and Miss Phebe J. Bostwick were married at the Congregational parsonage in this city, September 8th., Rev. E. S. Bollinger being the officiating clergyman. Mr. Blake is a veteran of the Spanish war having served as corporal in Company M of 35 regiment of U. S. infantry volunteers. Miss Bostwick is one of Linn county's well known teachers. Mr. and Mrs. Blake will reside in Portland.

W. H. H. Sampson the popular auctioneer, is greatly in demand. Mr. Sampson has an engagement at D. H. White's place at Liberal, September 20th when he will sell all of his farming utensils. On the afternoon of September 27, he will be at Jasper Trullinger's ranch to sell various useful articles, September 28th at Mrs. McMurry's place Damascus, where he will dispose of all her farming utensils as she leaves soon for Tacoma.

W. H. Looney vs J. F. Hawkes were the parties in a justice court suit Monday afternoon. The question in dispute was as to the value of some boom sticks and piling, and the value of some oats including an account for labor. No jury was called and the respective issues were argued before Judge Stipp. Judgment was rendered in favor of plaintiff for \$150.82 1/2 which was something like \$40 in excess of what the defendant recognized is owing the plaintiff.

Robert Batty, who left Canby on the 18th day of August, and whose whereabouts has been ever since a matter of serious conjecture, was discovered at Sacramento a week ago this Wednesday and immediately taken to his parents at Santa Barbara, California. The father of the youth, who is the general manager of Street's Western Stable car line in Chicago. He took him with him to Chicago where he hoped to relieve him of a little of the incorrigible in his nature which comprises such a large part of his general makeup.

Harvey E. Cross lost 125 cords of fire wood as a consequence of the fires burning in the woods around Gladstone. Mr. Cross, and several others, spent most all day Tuesday and Wednesday fighting the flames and at a late hour were still battling with the fiery elements. Had the wind been blowing southwestward, on Tuesday, almost all of Gladstone would certainly have been burned but happily at the critical moment the wind turned eastward. So far Mr. Cross has saved about 14 cords of his wood lying in the timber to the left of the old electric line.

Authentic information is received that the whole country out as far as Buckner Creek has been burned, some houses, many fences and barns going down before the hungry flames. In this fearfully devastating fire, a valuable and severe lesson must be learned by the people of the country that it's no time, when everything is hot and dry, to start to slash and burn. Most of these fires started from this source, and another year these costly experiences must be borne in mind and a more opportune time for slashing chosen.

Wednesday afternoon Miss Alice Roberts was married to Lyman Andrews at the residence of Mr. and Mrs. Fred C. Miller. The ceremony, performed by Rev. A. J. Montgomery, of Portland, was beautiful and impressive. Mr. Andrews holds a position as floor walker in Meier & Frank's store, Portland, and for several months Miss Roberts has been clerking for the same firm. The young couple left Wednesday for a short wedding tour, and on their return will reside in Portland. Mr. and Mrs. Andrews were the recipients of many good wishes from friends in this city.

Marshall Robinson, an old color man, whose home is in San Francisco, was in this city Monday selling little books on vegetarianism. This old colored man is 89 years old and was born in Virginia, where he spent 40 years of his life, a slave in the cotton fields in the South. He is a very interesting and unique character. His hair is tinged with the snow of many winters, and his care worn countenance bespeaks of many hardships. He has not partaken of meat of any kind for 15 years, as he does not believe it is conducive to health.

Sheriff Shaver wishes to inform the general public that the second half of the unpaid taxes must be in and paid on or before the first Monday in October. It will greatly facilitate matters for all parties having taxes to pay to come in and pay them before the last day allowed by law, as on that day the rush will be so great that the clerks in the office will be unable to make out the receipts sufficiently fast to meet the demand, and then, too, when obliged to work so fast, mistakes are apt to be made. Remember the day, and come early and avoid the rush.

The boats, notwithstanding the low state of the river, are having a great run and every day carry large loads of traffic from Portland up the river and return. Monday evening the old steamer Modock that has been so long flying up and down the river, carried 700 sacks of grain from Salem to Portland and this is nothing out of the ordinary. The poor boys, who handle the merchandise, say that they seldom get to bed before 2 o'clock in the morning and long for the rush to abate. The boats are making the trip to Salem every day though only by means of the capstan pulleys and ropes and reaching Salem generally about 10 o'clock at night.

Mr. George Smith a resident of Shubel when interviewed Thursday morning by the Courier reporter, in regard to the extent of damage by fire; gave the following approximate estimate: Ed Hornshuh, who lost everything from \$200 to \$3000 with no insurance. Mike Moeheke about \$2000. Fred Blum from \$1500 to \$2000. Chris Hornshuh about \$500. Fred Moeheke \$500. With slight insurance. Wesley Hill \$300 with small insurance. Mr. Massinger lost a barn, \$150. William Guenther fencing and machinery \$400. Gus Schuebel, fencing, \$200 and damage on the old Robinson place perhaps \$200. These figures are all under rather than over the loss.

A \$30 gold watch was stolen by W. Burk Tuesday afternoon at the New England kitchen. W. Mariel was the loser and at this hour the stolen property has not been found. It seems that several of the boys were rooming together and young Burk having ample opportunity to know where the boys kept their valuable, took advantage of it and on Tuesday afternoon made a hurried trip to Portland with the stolen property. Constable Moody was put on his track and Wednesday found the man answering Burk's description walking down 1st street, Portland. He had sold the watch and is now in jail awaiting a hearing.

Thursday afternoon fire broke out up in the timber back of some cottages on 13th and Taylor streets. Some small boys, it is thought set Wednesday in the woods and it needed only the strong wind of Thursday afternoon to fan it into devastating flames. Firemen from all of the companies were on the ground with several hundred feet of hose, and while the fire was not wholly subdued it's main strength was greatly impaired by the strong current of water thrown upon it. One house near the U. B. church caught fire but was quickly extinguished. At a late hour, as we go to press, the fire was still burning and was taking a south-westerly course with no immediate danger.

The fire which has been raging for several days has been burning with unrelenting devastation. The latest reports available disclose the following gloomy facts. Mike Moeheke, one of the most prosperous farmers at Shubel, lost all his buildings, barns and fences. Seeing that the house and barn were doomed, he removed his furniture and valuable necessities out side where he supposed the flames would not approach but to his dismay all of his household goods, furniture and several horses were burned to ashes. The entire loss perhaps would not be covered by \$9000, this is not all, for Elmer Dixon has lost a house and barn a little ways from town. M. Blum owns one barn less, G. W. Nash, the woodman, has lost considerable cord wood on the hill and from reports, that we consider reliable though not absolutely authentic, several hundred valuable sheep and a number of milch cows were burned.

Johnson & Lamb have a new stock of guns and ammunition. Shells loaded to order. They also continue to do up-to-date bicycle and umbrella repairing.

A Change

In the medicine is so often ordered that you sometimes doubt the ability of the physician to properly treat the patient, when if the truth was known the fault is with your druggist and not the doctor. You become tired and restless waiting for a change for the better to take place, until in your anxiety you order a change of doctors, when in the majority of cases a change of druggists would be more beneficial to the sick one.

When your physician tells you the medicine don't have the desired effect, ask him to allow you to have us prepare the medicine and note the result.

We accurately compound the prescriptions of all physicians, no matter how complicated. We do the work ourselves and don't turn them over to an inexperienced assistant to fill.

Before changing doctors

They have been employed all summer caring for the eggs and taking care of the manifold duties incidental to such work. Mr. Hatton, on being interviewed, said that the eggs numbered only about a million and a half, and short about that number. The shortage, he says, is due to the low water principally.

The Thrust of a Lano

is scarcely more agonizing than the recurrent pains in the abdomen which follow the eating of improper food or too free indulgence in ice-water. The immediate cause of cramps and colic is often the distention of the bowels by gas. Quick relief follows the use of Perry Davis' Painkiller. Careful housekeepers give it the place of honor in the family medicine chest.

DOWN CELLAR

We have a stock room 22 x 80 ft. in size that you know nothing about—Our cellar we are talking of. Much of our stock is out of sight. Some things spoil by exposure, some things take up too much room, some things are wanted only occasionally. We keep these things out of sight, but they're right at hand when you want them. We carry about everything that can be found in the biggest drug store in the country. If there is something you want and don't see it, it may be "down cellar."

The carpenters are still making trouble for us and will for another two weeks. We want to get as much of the stock out of their way as possible—hence reductions throughout both stores. Prices cut from 20 to 40 per cent on hundreds of items.

PERFUMES

We avoid the cheap in perfumes the same as we do the cheap in drugs. No perfume at all is preferable to cheap perfume. These are high grade at alteration sale prices:

- Murray & Lanman Toilet Water, large,50
- Eastman's Chic, Regular 75c oz. Now .50
- White Rose " 50c " " .39
- Clover Blossom " 50c " " .39
