The water in the Willamette river continues at very low stage, so low that work in the mills across the river is practically at a stand still. In the paper mills but one machine is now running and as long as the water continues this low the mills will be obliged to run but the one machine. The boat gets stuck often between here and Portland and its takes great exertion to get up the river in many places.

Tuesday morning Dr. Carll narrowly escaped a serious accident while driving up the Oanemah road. The road there, as we all know, is exceedingly narrow between the electric line and the bank and while the doctor was driving along, a car bore down upon him at a fast speed and before he could get his horse turned off the track, the car crashed into the back wheel and smashed it to atoms. But a moment longer on the track and the doctor's rig with the driver would certainly have been seriously injured.

The Baptist rally held Sunday night at the Baptist church was a success. In the morning the very little folks, conducted the service and their performance was very interesting, indeed; the program consisted of many choruses, recitations and readings, and every number was deserving of the appreciation shown by the large audience. In the evening a packed auditorium greeted the older members of the school and their entertainment, under the auspices

of Mrs. Dresser, was the best given by the school in a long time. The feature which perhaps merited the highest praise was the singing by the school.

E. Lacey, a citizen of Dodge, was in Oregon City Monday in the interest of the suffering people in and around his neighborhood.
