A movement is under way, headed by Mr. Elmer Cooper, to organize the Order of Eagles in this city. Its an order made up chiefly of young men and is considered by all who are well informed in such matters to be a very desirable organization. About midnight on Wednesday Centrifugal force unloaded a freight car opposite the house of W. W. Quinn. As a car load of lumber rounded the curve square timbers and two inch lumber flew pell-mell into the river. Interim, the sidewalk railing was demolished. Clarence Sevick, of New Era, was in the city Wednesday interested in getting a division of his district. As it now stands the children of his community have to walk about three miles to school and Mr. Sevick is desirous of dividing the district and getting a new school for the children. water upon which part of the ties have been placed. L. Hale has been boarded a gang of 19 men for a couple of weeks. This company is not making much blow but is doing considerable active work. Until further notice Unitarian services will be held Saturday evenings instead of Sunday evenings, beginning next Saturday evening at 7:30 o'clock, at the office of O. W. Eastham. Rev. W. G. Elliot, Jr., will preach upon the subject: "What to Believe and What to Do." All are cordially invited. The water at the falls has reached such a low stage that one can now walk clear around without hardly wetting even the sole of their shoes. If the conditions of low water continues all lines of industry depending for their maintenance on the force of water coming from the falls will suffer a serious check.

John G. Porter Dead. John G. Porter, who died at his home in this city Thursday afternoon, Oct. 16, was born in North Yarmouth, Cumberland county, Me., March 7, 1833. He was educated at Westbrook Seminary, after which he went to Lowell, Mass. where he learned the trade of wool grading and assorting. In 1852 he went to the Australia gold mines and returned to the United States in 1856. He followed gold mining in California from 1860 to 1864, and came to Oregon City in 1866 to enter the employment of the Oregon City Manufacturing Company. He remained with the company for over 20 years in the capacity of wool buyer and foreman of wool department. For five years he was member of the city council and was always prominent in municipal and county affairs. He was a staunch republican, and served a term as county assessor. Since January 1, 1899, he was chief deputy in the assessors office. Mr. Porter is survived by a wife and two daughters, Fannie G. and Katie I. Porter, who hold responsible positions as teachers in the public schools of Portland. Mr. Porter's funeral, which was held Sunday at 10:30 o'clock from St. John's Catholic church, was very impressive and was largely attended. In the death of Mr. Porter, Oregon City loses a citizen of sterling qualities as a man, and one in whom all classes and sects deplore their utmost trust and admiration. His life in the home was especially amiable and his extreme kindness of heart will characterize his noble memory. Station A of the Willamette mills started up Monday after several days of idleness on account of low water. The water has not risen perceptibly, but several of the big wheels on the West Side are still stopped. The rain of the last two days has had its effect on the river and it can not be long now when many idle men will be reinstated. Nothing shows more clearly the importance of the great mills in this city than the fact that whenever low water or scarcity of work compels them to close down. The grocerymen, dry goods men and men in all avenues of trade are heard to complain to get. Already the city business has perceptibly decreased in volume, and only because many industrious mill men are not employed.

Next Saturday occurs at Milwaukie an election for the incorporation of that place into a city at which time an election of a mayor, six aldermen, treasurer, marshal and recorder will take place. There are about 75 voters in that community who will probably express their feelings in the matter next Saturday. On reason why such active interest is being taken by so many leading citizens is to secure the removal of the dangerous powder house from the immediate vicinity of Milwaukie. Thursday morning the early south-bound freight train met with quite an accident. It was running at about 30 miles per hour around the Canemah curve when the upright poles which held the lumber on two flat cars gave away, and an immense pile of lumber was thrown with great force against the sidewalk and railing. The walk for some distance was torn up and the railing demolished. Fortunately there was no one near the track at the time, so nobody was hurt. E. F. Whitten, a berry grower who lives on the west side of the river, was in the city Wednesday with fine sample boxes of berries. These berries are the Macon variety and are growing outdoors without any shelter or protection of any kind. Mr. Whitten states that if the cold weather would not come he would have berries of the kind as late as Christmas. His vines are now full and bearing as fast as the sun will ripen them. What would people of the east think of ripe berries on the 24th day of October. At the meeting of the debating society of the Oregon City Academy next Friday night the following question will be discussed: Resolved that the L. and C Exposition will be a detriment to the state of Oregon and the city of Portland. Virgil Clark, and Miss Gertrude Griffith upholds the affirmative and A. A. Price and Miss Bessie Davis will speak for the negative. Another feature of the entertainment will be an address by Marcus Sugarman a bright young man who formerly attended the academy. One more attractive feature of the meeting will be the reading of the society paper, "The Sunbeam Weekly," by Editor Eddie Willey. Helen Rosalind Davis who lives on a ranch on the Abernathy, is a lady of considerable native talent as a poet. She has lately written a beautiful song entitled "They Toll the Bells Softly." The song is a memorial in honor of the illustrious William McKinley. This poem is one of several from productions which have been produced by the gifted woman, one poem being on "The Trusts" which is a spirited exposition of the ways and methods of trusts. Mrs. Davis has devoted her energies chiefly to writing fiction. She has gained considerable prominence writing novels and may in the future give this line of writing her undivided attention. The Les Papillons Dancing Club gave another one of its very popular dances Friday night at the armory. Thirty couples were on the floor, and the music rendered by the Furney orchestra was of its usual high order. This dancing club is rapidly becoming the most popular affair of its kind in this city and many pleasant evenings will be spent here this winter. The Friday before Thanksgiving is the time chosen for another social hop, and it will meet with the same favor shown last winter. The following young men are the members: Charles Schram, William Marshall, Mort Latourrette and Tom Myers. A Wretched Millionaire. The story is told of the owner of several railroads who was unable to buy relief from the nerve-twisting agony of neuralgia. It is an unlikely tale. The sick man must have known that Perry Davis' Painkiller would help him at once, as it has helped so many thousands of sufferers in the past sixty years. There is but one Painkiller, Perry Davis'.
