The Poverty social at the Congregational church on Wednesday evening was a decided success in every particular. Quite a building boom is on in Oregon City. New residences are going up on the alltops and in the valleys, while

several new business blocks are also under way. The new Methodist church store-room is progressing very nicely and the building was lowered to the walls last week. The congregation hope to occupy their edifice by May 1. The ground floor will be occupied by Block, the housefurnisher. The new depot for the electric railroad is one of the largest buildings that will be constructed this summer. Its depth will be nearly 200 feet while it will have a frontage of more than a hundred. An opera house will be on the second floor. Ely Bros.' new warehouse is also going to be a structure of considerable size, while Fairclough Bros.' new business block will be but little smaller. Grading is being done for several new residences on the hill-tops on the east side and altogether there will be plenty of work for the carpenters in Oregon City for the next several months.

The rugged life found among the sun-kissed hills of Arkansas forms the groundwork of a graphic story that is depicted in "Human Hearts," that melodrama of intense interest. This play will be offered at the Shively opera house Saturday, Feb. 28th, and always appeals forcibly to popular interest of all classes. It is a romance worthy of Dumas and other famous writers. The story told, in unfolding the plot is a beautiful one, sweet, pathetic, natural, and it teaches a wholesome moral lesson. Like those patriotic songs, "America" and "The Star Spangled Banner," it never fails to touch the hearts and minds of those who see it portrayed with vivid life-like action. Pathos and villainy are happily blended with comedy so that laughter is mingled with tears and thrills.

D. C. Richardson, A. N. Kirchem and James Fullam, of Viola, were in Oregon City on Wednesday on business. They as well as all of the citizens in the Viola neighborhood are greatly interested in the improvement of the Abernethy road leading from Oregon City to Viola. This is one of the main roads in the county and by all means should be improved. It will be necessary to plank a good deal of the route and some of the road can be made of gravel. There is about six miles to improve and the cost would be small in comparison to the benefits that would be derived from the improvement. About 40 per cent of the road money in the county will belong to the Oregon City district and it is likely that most of this fund can be gotten and it ought to be done. A part of the money for this improvement can be raised and will be raised by private subscription.
