J. C. Kirchem quit the dairy business where, at the head of his herd became despondent and committed suicide.

Literat.

The swales and ditches are drying up on the bottom land, which is something unusual for this time of the year.

The farmers are all glad to see this fine weather and the ground is in fine shape for seeding unless something unforeseen there will certainly be a large crop this year.

Early gardens are being planted and a few are planting potatoes for early use.

Well, Mr. Editor, how does this weather strike you for your first year in Webfoot?

J. E. Coates hitched up his young thoroughbred and started to plow his orchard. He was so swift he could not even get hold of the plow handles and he dragged Mr. Coates fifty feet or more through the briars and apple trees. So he unhitched his steed and gave up the job—a little different than steering a boat, eh?

Pierce Wright and Levi Stehman goes to Portland today on a business trip.

Frank Vaughan, of Eastern Oregon, arrived today and will visit his parents, Mr. and Mrs. W. H. Vaughan, and relatives a short time.

Say, did you see the young swell out Sunday with his flyer and new harness? Levi thought it was a cyclone the way the dust flew.

Billy Skein is hauling lumber from E. Austin's sawmill to Oregon City.

J. O. Morris is busy slashing brush on his farm. When will you burn it by the new law?

Willie McCraw returned from Hubbard Monday, where he was visiting his mother and relatives.

Don't forget the basket social at Molalla Grange hall No. 40, Saturday night.

The grim hand of Death has taken another respected and honored pioneer. Jessie W. Adkins died at his home near Wright's bridge, February 25, 1903. Mr. Adkins was born at Monticello, Wayne county, Kentucky, in 1827. He was married to Elizabeth Dabney in 1851, and moved to Unionville, Mo., in 1854. In the spring of 1865, he with his wife and family started across the plains on the old emigrant road with an ox team for the far west Oregon and arrived in Clackamas county late in October, 1865,

and lived the first winter near Needy on Poverty Ridge. The following year settled on a farm near Canby on the Molalla Bottom, and has lived there until a year ago, when he sold his old home and bought a small piece of land near Wright's bridge and resided there until his death. He leaves a wife, three daughters and six sons, besides a large circle of friends and acquaintances to mourn his loss. Mr. Adkins was well known in Clackamas county and when he was laid to rest in Zion cemetery at Canby. Many a sad tear dropped as the last look at the aged pioneer was laid to rest. Rev. T. Wiles conducted the funeral ceremonies. Mr. Adkins was 76 years, 2 months and 2 days old.

SYLVIA.

Beaver Lake.

As Beaver Lake has not been represented in the columns of the Courier for some time, I take pleasure to send in a few items to let the outside world know that we are still alive.

G. W. Wyland, a well known hunter of this section brought one of the largest wild cats ever killed in this locality Wednesday last. It weighed nearly forty pounds. This is the third one in a month.

W. M. Mayingo is improving his place with a half a mile of plank fence.

William Grimm, who has been attending school at Forest Grove for sometime is home visiting his parents.

Early sown grain looks well and promises a good crop.

There seems to be something very attractive in Coal Creek, as a number of young people from this section gathered Tuesday last.

Roy Thomas, of Scotts Mills was visiting relatives in this section a few days ago.

Raymond Wyland a well known young man of this section had the misfortune to severely cut his foot while working in the logging camp a few days ago.

As there has been some uneasiness concerning the writer's whereabouts. I wish to say to all whom it may concern that I will not leave Webfoot before April 15th.

Word comes from Jefferson that Mrs. May Vorheis a former resident of this place, died suddenly at her home in Jefferson Monday last. She leaves a husband and five children to mourn her loss.

Come on, come on ye legal voters March the ninth, to the special school meeting and use your good judgment and vote to your best interests and future welfare.

Stafford.

At the meeting of Tualatin Grange on Saturday, a resolution was passed the substance of which was that the county court be requested to do the work necessary on the public road over Polifka hill to make it passable during wet weather. The court, by transferring that piece of road to its present location, made matters worse instead of better, and the money thus expended was practically wasted.

Tualatin Grange also passed this resolution: Resolved, By Tualatin Grange No. 111, that the state government be petitioned for submitting to a referendum vote the measure passed by the last legislature, appropriating \$500,000 for the Lewis and Clark exposition at Portland in 1905.

Some of the Frog Pond farmers are digging late spuds. There is a surplus stock of the tuber hereabouts awaiting a rise in the market.

The onion growers up the Tualatin are getting it in the neck. Last year's crop, on account of the low price and large production, will not pay expenses. The two crops previous to last year's sold at large profits.

George Baker, formerly marshal of the city of Sumpter, accompanied by his wife, is visiting the Sharp family.

Col. Phil Baker has the unique distinction of being both a successful farmer and the only lawyer in the west side of the river. In 57 legal contests with attorneys of Oregon City and Portland, he was vanquished only twice. It seems, therefore, that to retain this doghty legal fighter—he is an union veteran—is almost equal to winning your case.

The dry weather has interfered with business at the wood camp, the mud necessary for studding having vanished.

T. L. Turner has a Leghorn hen, that is, it seems to be mostly Leghorn, which is a x to seven years old, and lays as industriously, winter and summer, as a young pullet just starting up in business.

Colton.

Buds are swelling, frogs are singing and no doubt the fish would be biting if it were not against the law for them to eat worms, flies etc., so early in the season.

Old Uncle Jake Hayseed is going around with a long face, predicting much hard winter yet, but we hope he is a false prophet.

Quite a crowd of young folks gathered at the residence of J. Gorbett last Tuesday evening and spent the evening very pleasantly. The principal past-time being music, both instrumental and vocal.

The dance on the 21 at the Colton hall was not largely attended on account of a mistaken report regarding the date. But it was well enjoyed by all who attended.

Walter A. Thorp, the wide awake agent for the Fidelity Insurance Co., was in our burg last week.

There was a shooting match at the Colton game park last Saturday that was much enjoyed by the sports of Colton and neighborhoods.

J. Putz has just completed a job of clearing for Dix Bros'. He is an expert at the business, the logs and stumps disappear under his sturdy strokes.

There will be a dance in the Colton hall on the 7th of March. Come one

Elwood.

I wish to correct a statement which appeared in the Courier of the 20th inst. J. M. Park, Sr., died at Elwood Feb. 13, at 11 p. m., where he had been living for the past six years with his daughter, Mrs. W. T. Henderson. The cause of his death was cancer of the eye. He had five children living in Oregon and four in the Eastern states. The funeral services were conducted by Mr. Wilson at the Elwood school house. The remains were interred in the cemetery at that place. Six of his grandsons acted as pallbearers. Mr. Park was in his 89th year.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.
