Marquam.

Clay Larkins, who has been home for a few days, has returned to Washington, where he is working in a logging camp. Our little city of Marquam is greatly increasing. Two families came from Missouri here one day last week. They are going to make their home here. There are sixteen in all. Mr. Little and Mr. Hubbard made a business trip to Oregon City Saturday. James Beatie, from Molalla, moved on his new place here, last Monday. Miss Elsie Hubbard, who has been at Silverton visiting for the last week, has returned home. Fred Hubbard and Miss Cora Neal went to Silverton on Sunday.

Springwater.

Raining at present. The farmers are getting along with their spring work quite well considering they have to build all fences anew. The young people of the grange on the 4th gave a pie social and entertainment which was a success, took in nearly \$20. The O. W. P. & R. Co. has about 200 men working for them at the power plant and near here, grading and building a sawmill. Rev. Hatch and wife went to Washington to visit their children. James Shibley, on account of poor health, would sell his sawmill. W. H. Kandle took his saw to Portland to have it repaired. Hands are scarce in Springwater and men are wanted. Mrs. L. E. Bard went to Oregon City on a visit to her aunt, Mrs. Hickman. School has commenced again with E. F. Surface, of Garfield, teacher. Miss Ora Lewellen is still improving in the sunny clime of Arizona.

Highland.

As Highland has not been represented in your valuable paper I will attempt to supply your paper with a few interesting items. Real estate is changing hands quite often. Old timers are pulling up stakes and new ones taking their places. E. Nelson sold out to a certain Davies from Wyoming. Chas. Welsh sold to the Dunlaps and will soon go to the Bunch grass country. Ed Harrington sold to a German family and will soon depart for parts unknown. The old Bode place for years unoccupied and covered with a mortgage was bought by a man named Baker. A new family is living on Robert Kinterford's place. Three families are occupying the old Livingston's place. Fred Madison, our enterprising young saw mill man has taken unto himself a wife, parted with the mill and will move to Oregon City. Frank Hollowing and Mable Jones who were recently married are occupying the old Jones' place. The Maccabees have recently organized a lodge at the K. of L. hall with the assistance of Mayor Dumick, of Oregon City and a few other prominent men from other parts of the country. The Highland Baptist Sunday school was suspended until more favorable weather. The Methodists have organized and are holding Sunday school in the K. of L. hall every Sunday at 10 o'clock a. m., Joseph Pollock superintendent. The Rev. Dunlap will hold services at the same place once a month, the second Sunday. James Parrish came out from Oregon City with his newly wedded wife and will sojourn in Highland for the summer. Highland Grange is holding its regular meetings the 1st Saturday in each month with efficient officers and a membership of forty, they are making preparations to build a kitchen. C. N. Larkins, master; G. R. Miller, secretary. Crops are mostly all sown and are looking well.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere. The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat. Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil. For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

Send for free sample. SCOTT & BOWNE, Chemists, 609 1/2 First Street, New York, N. Y. Price, 50c and \$1.00, all druggists.

Cattle are looking thin, hay and feed are scarce.

A representative from a creamery firm from Portland was in this vicinity a few days ago making arrangements to handle what cream we can supply him, but he has a separator to sell. Brother farmers, keep your eyes peeled. If business is legitimate it will stand the test of investigation, and if not it will need it. The Board of Directors of District No. 32, met last Thursday night and employed Miss Grace as teacher for the remainder of the time, which will be two months more, making a five month's term. Rob Ringo and Orval Martin were breaking their old backs digging and hauling rocks last week. For Bob, he says that there is no use for him to go to church as long as there is rocks in his fields. Highland Grange is advertising for bids to build a kitchen to their hall, which, when built will enable the Grange to give a dance. The Grange here is progressing nicely. Have been taking in new members every month and what is more it is generally the better class that is going in. Mrs. Howard of Mulino has promised to be present at the next meeting. She is secretary of the State Grange. The farmers are signing petitions to have the law appropriate \$500,000 to the Portland fair, referred to a vote of the people which is right. Aside from the question of right or wrong, the taxpayers should have the right to say where their money goes.
