THE SHERWIN-WILLIAMS PAINTS

Paint Brushes Paint

Brushes that were bought right. By RIGHT, we mean bought last fall before the advance and bought direct of the makers. In other words, you have no wholesalers' profits to pay when you buy of us. THAT profit goes to you.

One of our customers said yesterday that "he was trying Sherwin-Williams' paint this spring because when he was in British Columbia last year every one there was using S. & W.; the people there swore by it."

That's just what they are doing here as they learn of its good qualities.

There is a great scarcity of fat stock in Clackamas county. Hay and grain of all sorts are very scarce and have been for some time. As a consequence cattle have come through the winter in a very bad condition. This is the season between hay and grass, when stock is thin, hay scarce and grass short. As a consequence Oregon City butchers are forced to secure meat supplies from other counties, mainly east of the mountains.

Theodore Fouts was adjudged insane Monday and ordered sent to the asylum. Monday afternoon officers took him in charge and escorted him to Salem. Fouts has been acting queerly for the past several months, and it was conceded on all sides that he was not in his right mind. On Monday he grew worse and was locked up. He once before was an inmate of the asylum but was discharged as cured. Mr. Fouts has considerable property in Oregon City.

A great meteor shot out of the southwestern horizon about half past 8 o'clock Friday evening and sped away as to the north-westward, where it burst into fragments. People who saw the phenomenon say that it was almost the size of the moon in appearance and lit up the world with its radiance like an electric light. When the meteor burst there was a sound as of a heavy explosion, not unlike a great blast. Had clouds not partially obscured the sky the phenomenon would have been seen by a great many more people.

Automatic Electric Clocks

The movement shown here is very simple in design and substantially constructed. It runs automatically and winds itself. The clock requires no attention and for durability and accuracy as time keepers these clocks are unsurpassed.

The cases are artistic in design and beautifully finished.

These clocks are especially adapted for use in offices, stores and factories.

We will hang one of these clocks in your office and you can pay for it in monthly payments if desired. In this way the monthly payments would be practically what you would have to pay as rent for any other electric clock, and when the amount of your monthly payments equals the purchase price of the clock it becomes your property.

Testing the Eyes

Sometimes when people get spectacles which suit them they go on wearing them for years without having their sight tested to see whether any change has taken place. This is wrong. All who wear glasses should have their eyes tested at intervals, even if the necessity is not apparent to them. As a general rule, spectacles for old sight require changing about every three years, but the sight should be tested every two years.

Whenever you feel uneasy about your spectacles don't hesitate to call and see us. Always glad to help you. If no change is necessary we will tell you.

Remember we test the eyes free of charge.
