EASY MONEY HUNDREDS OF VISITORS

OREGON CITY IN THE FOREFRONT AS A SUNDAY PLEASURE RESORT.

Canemah Park a Most Popular Resort and Visited by Large Crowds.

Oregon City was filled with a regular flood of visitors last Sunday. It was the first Sunday since the weather has been warm enough to be comfortable that the sun has shone all day. The Oregon Water Power and Railway Co., began running trailers early in the day, and even then was hardly able to manage the traffic between this place and Portland. The steamer Modoc brought down a big crowd from Dayton, and all combined a thousand or fifteen hundred visitors must have seen the city.

The crowd passed the time in strolling about the city, climbing to the top of the heights and viewing the falls.

The baseball game in the afternoon proved quite an attraction, and after the game the new dancing pavilion in Canemah park was the mecca towards which hundreds turned. The dancing pavilion which was burned out a few weeks ago by an incendiary has been replaced with a more spacious structure and was thrown open for the first time Sunday. A large number regaled themselves in tripping "the light fantastic" until a late hour in the evening, while scores who did not indulge in the art strolled about the park and watched the tumbling waters of the falls casting rainbow spray into the air.

The park is a beautiful resort in which to pass a few pleasant hours. The tall fir rearing their heads heavenward, the bold cliffs behind and the lovely falls beneath all lend their parts in making this park one of the most beautiful of which any city the size of this can boast. The park promises this year to be more attractive to the visitors than ever before.

Rescued from Suffering and Death by PAINE'S Celery Compound

THE GREAT MEDICINE.

MR. ALFRED BROWN,
A Prominent and Popular Citizen, Says:
"After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., LL. D., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous, life giving prescription, with the conviction and positive knowledge that it had peculiar virtues and ample powers to cure.

Thousands of the strongest testimonials from the best known and most reliable men and women of our country fully sustain the claims made by Dr. Phelps regarding his incomparable Paine's Celery Compound.

One of the most convincing proofs furnished, comes recently from a gentleman widely known in the capital city of the Dominion of Canada. We refer to Mr. Alfred Brown, 91 O'Connor St., Ottawa, Ont. Mr. Brown's letter fully demonstrates the fact that the greatest sufferer may cast off his or her burden of disease and become well, strong, and happy.

It proves, too, that the great medicine maintains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses.

Mr. Brown says:
"I acknowledge with thankfulness and pleasure the fact that I have been cured of a very painful illness of eight years' standing by use of Paine's Celery Compound. I had, during the years of my illness, tried almost all the advertised medicines without deriving any good results. I was also treated by several of the best doctors of this city, hoping to find that one of them, at least, would understand my case.
"I was getting worse, and was told I was incurable. I was indeed in a critical condition. I could not go from the house alone, as I was liable to sudden collapse. I tried hospital treatment, but no relief or good results came to me. I could not sleep; anything that I ate increased my agonies; I was extremely weak, restless, tired, and despondent; was obliged to walk about with my hands pressed firmly into my left side to ease my pains; my feet and hands were cold continually; had inclination to vomit, had profuse, cold sweats, quick breathing, and would be racked with pain for hours at a time.
"After the regular use of Paine's Celery Compound for a time, I am now in the best of health, have good appetite, and can use any kind of food. Thank God I am my old self once more, all through the use of Paine's Celery Compound."

GERMANY'S BUILDING AT THE WORLD'S FAIR

A Reproduction of Old Castle Built by Frederick I, of Prussia.

The plans for the German National Pavilion at the World's Fair, St. Louis, have been completed and submitted to the Director of Works, Isaac S. Taylor, for approval. It has been the endeavor of the German government to keep the architecture of the building in harmony with the Exposition buildings in the immediate vicinity. The pavilion will be a fairly accurate reproduction of the central portion of the royal castle at Charlottenburg, near Berlin. This old castle occupies a conspicuous place in the history of German architecture. It was built about the end of the 17th century for an ancestor of the Emperor Frederick I, first king of Prussia. The castle was designed by Andreas Schluter, the greatest German architect of that period.

The architecture of the Charlottenburg castle is imposing. The main facade is in two stories, crowned by an enormous stilted dome. The facade of the first floor is in rustic stone. The second floor is ornamented with engaged Corinthian columns. In the center of the facade is a projecting bay crowned by a beautiful classic pediment.

The drum of the dome, which is also surrounded by a Corinthian engaged colonnade, is higher than one of the stories of the building. The curve of the dome is broken by six bulls'eye windows and is crowned by a towering lantern surmounted by a sculptured figure.

In the pavilion the ground floor will be used for reading, writing office and reception purposes. The second floor has been set aside for purposes of representation. It will embrace an actual reproduction of the state rooms of the castle of Charlottenburg. These rooms will be fitted up with precious old furniture, Gobelins, and silver ornaments, the products of bygone days. In a separate building but connected with it will be a restaurant and a "Kneipe," a combination of smoking room, drinking room, restaurant and fraternal society lodge room. This subsidiary building will harmonize completely with the architecture of the main structure and will be connected with it by an alley.
