# M. MICHAEL

SUCCESSOR TO M. MICHAEL

### Pupil of Joachim, the Violin King, Coming to Portland.

William Wallace Graham, son of the late J. W. Graham of this county, has just returned from a six and half years stay in Berlin, Germany, where he has been studying the violin under the greatest living master, Prof. Dr. Joseph Joachim, Director of the Royal High School of Music.

### test is so severe that scarcely five per cent of those who come from all parts of the world to try the half-yearly examination for admittance, gain the much prized goal.

Of the few who gain admittance to the school there are but a small proportion who attain the much coveted honor of receiving lessons from this great director. This fact alone brings Mr. Graham to us the very best recommendation to us under the protection of His Imperial Majesty Kaiser Wilhelm II, from whose private purse the school is maintained, the only requirement made to gain entrance being talent, but this one

### test is so severe that scarcely five per cent of those who come from all parts of the world to try the half-yearly examination for admittance, gain the much prized goal.

Mr. Graham is the happy possessor of two very fine old Italian violins, one being a Guarneri (Joseph del Jesu 1733) and the other a Giuseppe Gracino (1870). We understand that Mr. Graham intends to locate in Portland, doing nothing but solo work and teaching, for which he should find a wide field, as he is the first Joachim pupil who ever came to the Northwest to locate.

### Hot Weather Weakness.

If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to liver. This Herbine will do it. It is a tonic, laxative and restorative. H. J. Freegar, Proprietor, Grand View Hotel, Cheney, Kan., writes: "I have used Herbine for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kan." 50c at Charming & Co.

### NOTICE TO WATER CONSUMERS

The use of water for lawn, garden and street sprinkling for the season of 1903 will be governed by the rules in force last season. Consumers are required to pay the EXTRA CHARGE for such use, during the first ten days in June. By order of BOARD OF WATER COMMISSIONERS

# SOME SOUND ARGUMENTS

It is a fine art to produce a piano that possesses all the desirable qualities and none of the poor ones. It involves the assembling of the right woods, metals, felts and leathers, and the proper seasoning, shaping and proportioning of them, the exact regulation of the thickness of the sounding board to give it the proper resonance, the light tempering and winding of the steel strings to give them the finest tone, the nicest adjustment of the action, and we might truthfully say, millions of other matters of minute detail.

Now, if the sound of a piano possesses all the desirable qualities, it follows of course that it has been properly constructed. Such a piano is a gem. It will be as much satisfaction to you 20 years hence as it is now.

Come in and let us explain to you the construction of our instruments, and their sound qualities. Ours are the finest made, and include such perfectly constructed pianos as the Weber of New York, the Chickering of Boston and the Kimball of Chicago, Pianos whose sound qualities are not equaled the world over, and many other sterling makes not so high priced.
