Virulent Cancer Cured. Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, N. J. An old man there had long suffered with what good doctors pronounced a curable cancer. They believed his case hopeless till he used Electric Bitters and Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microb. poisons at the same time this salve exerts its matchless healing power. Blood diseases, skin eruptions, tics and sore-throat. Bitters 50c; salve 25c at Geo. A. Harding. NOTICE OF FINAL SETTLEMENT. Notice is hereby given that the undersigned administrator of the estate of Elizabeth Shandy deceased, has filed his final report in the county court of Clackamas county, Oregon, and the said court has set Monday, July 26th, 1903, at the hour of 10 o'clock a. m., of said day at the court house in Oregon City, Oregon, as the time and place for hearing any and all objections to said final report, and to his final discharge as administrator of said estate. O. S. BOYLES, Administrator of the Estate of Elizabeth Shandy, Deceased, ROBERT A. MILLER & O. B. BAX, Attorneys for Administrator. First Publication, June 19. Last Publication, July 17.

ADMINISTRATOR'S NOTICE Notice is hereby given that I have been duly appointed by the County Court of Clackamas County, Oregon, Administrator of the estate of Sarah J. Fancher, deceased, and that all persons having claims against said estate are hereby notified to present the same to me at the law office of G. A. & D. C. Lacombe in Oregon City, Oregon, properly verified, within six months from the date of this notice. Dated June 6th 1903. DAVID FANCHER, Administrator of the estate of Sarah J. Fancher, deceased.

The Fine Draft Stallion BOB Will make the season of 1903 at my stable near Cunningsville, and close to Eagle Creek, in Clackamas county at \$6.00 to insure a mare in foal. Description and Pedigree: Bob is a fine draft stallion, chestnut, good build, fine form and action and a sure foot gaiter. He is by imported Cubidon, who weighed 2,160 pounds. He is twelve years old and in the very prime of life. He has made the season in this county for many years, and has as fine a lot of coats and draft horses as can be seen in this part of the world. If you want to raise the best draft and farm horses to be found breed your mares to Bob. Money is due when mare is known to be in foal or parted with. J. W. DOWTY, Cunningsville, Ore.

Foley's Kidney Cure makes kidneys and bladder right. Dizzy? Then your liver isn't acting well. You suffer from biliousness, constipation. Ayer's Pills act directly on the liver. For 60 years they have been the Standard Family Pill. Small doses cure. BUCKINGHAM'S DYE for the Whiskers

Meeting of City Council. The City Council met in special session Monday evening. The meeting was in every way a stormy one. The committee's report, unfavorable to the building of the South end road provoked a storm of protests and a flow of oratory. The matter was finally taken out of the hands of the old committee by their request and a new committee appointed to be favorable to the building of the road. This road question has been a bone of contention for a good long time. From time to time it has been postponed and referred to committees, but it bobs up with persistent regularity. If all that has been written and printed about it was paid for at regular newspaper advertising rates, the printer would have received enough to have built the road. It was voted by the council to make a purchase of 15,000 yards of crushed stone and of 15,000 petrified brick for use on the streets. The question of giving something to the flood sufferers of Heppner was discussed and it was finally agreed to give those stricken people the sum of \$100. The proposition to vote something to the Fourth of July celebration was turned down. The citizens of the town who had contributed to the Fourth of July celebration fund were invited to be present and to take action relative to giving the funds subscribed to the Heppner victims. After due deliberation this plan was decided to be unadvisable, and the funds subscribed will be used for the purpose originally intended.

Constipated Bowels To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita, writes: "I have used Heppner's to regulate the liver and bowels for the past ten years, and found it a reliable remedy."

TREASURER'S NOTICE I now have money to pay county warrants endorsed prior to Dec. 1st, 1900, also road warrants endorsed prior to April 1st, 1903, interest will cease on such warrants on the date of this notice Oregon City Oregon, June 19th, 1903. E. S. CASDAY, Treasurer, Clackamas County, Ore.

New price One Dollar a bottle at your druggist's. If he hasn't it write to Dr. Perrin Medical Co., Helena, Mont. PERRIN'S PILE SPECIFIC

CANBY WILL CELEBRATE. Five Hundred Dollars Subscribed to the Fourth of July Fund. The city of Canby has subscribed \$500 for a Fourth of July celebration. This is perhaps the largest amount made up by any town of a like size in the state. Canby with her 1,000 or four hundred people is always patriotic. She always celebrates the Fourth and this year she promises to out do herself in this line. One man in Canby gave \$50 toward the celebration. The Silver-ton Brass Band has been secured for the occasion and will dispense sweet music all day. The Silver-ton band is one of the best in the state. Judge Gordon E. Hayes, of this city, will be the orator of the day. This justifies in making the assertion that her oratory will be all right, for the judge is an orator with no superiors in Clackamas county. One of Canby's most charming young ladies, Miss Veva Knight, will read the Declaration of Independence. There will be racing, bicycle, foot races and other sports of a similar nature. In the evening a grand ball will be given and a Portland orchestra will furnish the music. Added to the other attractions is an ox barbecue. At night \$200 of their fund will go up in fireworks. Canby is ALL RIGHT.

FUNERAL NOTICE. The funeral services of late William Caseday were held at the Zion cemetery last Friday. Mr. Caseday was born in Green county, East Tenn., 1732 and died at New Era June 10, 1903. The deceased left a wife and nine children: Mrs. Mary Hiatt, of West Port, Mo., Mrs. Ben Sawyer, of Meadowbrook, Ore., Ben Caseday, of New Era, Geo. Caseday, of Lone, Mrs. Baker of Oregon City, Mrs. Sager of Mulino, Ed Caseday and William Caseday of Canby and Alex Caseday of New Era. Mr. Caseday was an old soldier having served in the confederate army during the Civil War. He crossed the plains in 1864 and since then has been resident of Clackamas county.

INDIVIDUALS MONEY to Loan to you at 6 per cent and 7 per cent on land or chattels. JOHN W. LODER, attorney-at-law, Oregon City.

Beware of Ointments for Catarrh that Contain Mercury. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

Saturday to Monday tickets to Newport \$3 or Yaquina \$3. Yours Truly, W. E. COMAN, Gen Pass Agent.

FEMALE WEAKNESS 422 1-2 Congress St. Portland, Maine, Oct. 17, 1902. I consider Wine of Cardui superior to any doctor's medicine I ever used and I know without I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have bilious headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nine days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities. Wilhelmina Swann, Treasurer, Portland Economic League.

WINE OF GARDUI Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a \$1.00 bottle of Wine of Cardui today. At the Nebraska experiment station alfalfa fed pigs as compared with corn fed had more lean meat, stronger vital organs and much stronger bones. One Thing and Another. Professor J. A. Craig says one acre of rape, with grain, will fatten twenty wethers in two months. Ten hogs will eat about one-third of an acre in two months. The Cheviot, a beautiful sheep, is said to be gaining in favor. One year old asparagus plants are the kind to set. Good draft horses are good property. Shallow culture is the latest fashion for corn, yet some people still favor the deep working. Soak parsley seed in warm water for a few hours before sowing. In spite of unsatisfactory beet sugar yields in some sections last season the total yield is figured at 32,337 tons more than last year.

THE BACON HOG. The Heavy, Fat Hog Considered to Be Worth More Money. One of the biggest concerns in the United States, located at the Chicago stock yards, is quoted by Orange Judd Farmer to the effect that for bacon hogs it considers the Tamworth most suitable. It thinks hog raisers are not producing any larger percentage of bacon hogs than ten years ago, but admits that there may be a slight increase. The trade calls for hogs of this class at certain seasons, but the demand is not a steady one and is governed by the English market. Packers desire the bacon hog when conditions are favorable, but at most times the heavy, fat hog is worth more money to the packers than the bacon hog. So long as corn is one of the chief products of the central west bacon hogs will not predominate. This firm further does not believe that a steady supply of bacon hogs would give a substantial premium over fat hogs. On the other hand, it believes that month in and month out the fat hog will net more money and be more profitable for the American farmer to raise. The value of the hog to the packer is governed entirely by the price at which he can sell the product. When lard is scarce and high, the fat hog which will produce the largest percentage of lard is the most profitable. When Danish and Irish hogs are scarce and the English market is not lively, then as a rule the bacon hog is very desirable; but, taking it all in all, this packing house finds that with the diversified demands and requirements we have to consider in the United States prime fat hogs will, as a rule, produce better results than hogs of the bacon type.

Saves Time and Trouble. I have built a turnstile according to the inclosed sketch that does the business. It will admit a man with a basket on his shoulder and at the same time will not let a hog pass through. The angle formed by the two wings of fence is so acute that a hog cannot pass through unless it is a very small one, says an Iowa farmer. If the hogs in the feed lot are small, a board a foot high is put at the bottom, and no shot can jump over and turn the angle at the same time. No more room than will admit of the body of the feeder will be necessary.

Cost of an Acre of Strawberries. For plowing, \$3; harrowing, \$3; marking, 50 cents; plants (8,000), \$25, average price; plants are scarce this year. Trimming and preparing plants, \$5; setting plants, \$4; cultivating with horse, \$7.50; hoeing six times, \$18; fertilizer, half a ton, \$15; four tons of straw, \$20; applying straw, \$5. This makes the cost about \$100 for the first year. Of course the increase of plants can be used to set a new bed the following year, which will make the cost one fourth less. The straw is worth as much as it costs almost to the soil. In these figures we are actually giving what it would cost the farmer to hire the work done by men who know how to do it. If the farmer does the work himself, he does not feel the cost any more than were he putting in a crop of potatoes. We advise setting the strawberry bed near the buildings, so it can be attended to without going far. The usual gross sales from an acre of strawberries are about four times the cost of the acre for the first year, concludes a New York state correspondent in Rural New Yorker.

Prevention of Onion Maggots. Professor Smith of New Jersey has given two methods of treating onion beds to keep away or kill the onion maggot. For small patches in the garden he would take fine sand and moisten it with kerosene and sow it along both sides of the row near but not touching the plants. This not only drives away the fly which lays the egg, but kills many of the maggots as they leave one plant to go to another, as they will when the first one is dead. The fly looks like a small house fly. A cupful of kerosene to a half a bushel of sand is enough. For larger fields he would make a furrow alongside of the rows, turning the soil away from the plants, using a hoe or hand plow for that purpose; then sow broadcast about 600 pounds of kainit and 200 pounds of nitrate of soda to the acre, after which level the ground again. The first rain will carry the fertilizer to the plants, killing many of the maggots and increasing the crop.

Alfalfa and the Pigs. At the Nebraska experiment station alfalfa fed pigs as compared with corn fed had more lean meat, stronger vital organs and much stronger bones. One Thing and Another. Professor J. A. Craig says one acre of rape, with grain, will fatten twenty wethers in two months. Ten hogs will eat about one-third of an acre in two months. The Cheviot, a beautiful sheep, is said to be gaining in favor. One year old asparagus plants are the kind to set. Good draft horses are good property. Shallow culture is the latest fashion for corn, yet some people still favor the deep working. Soak parsley seed in warm water for a few hours before sowing. In spite of unsatisfactory beet sugar yields in some sections last season the total yield is figured at 32,337 tons more than last year.
