Compound Permanently Cures Sick and

Nervous Headaches that Make Life Miserable.

• Sick and nervous headaches are amongst the worst ills of life. The man or woman who is subject to headache at irregular intervals, goes through life be using a load of misery and wretchedness that is terrible to think $\frac{1}{2}$

Headaches as a rule, result from a dis-ordered condition of the nervous system. Mental excitement, loss of alcep, bodily fatigue, and disordered digestion are exciting When the brain becomes tired and debilitated, the whole nervous system is weak-ened, and headaches result. If the liver is sluggish, the kidneys inactive, and digestion deranged, headaches invariably follow. To cure and prevent headache, the nervous system must he strengthened and vitalized. The most persistent cases of headache, nervous feebleness, and skeeplessness, are permanently cured by Paine's Celery Compound; it is the great reconstructant of the nervous system. Mrs. Henry Westrick, St. Clair, Mich., tells of her release from suffering as follows:--"I have been troubled with dyspepsia and sick headache for a number of years. About

every week I would have a bad spell of sick headache, but since I began using Paine's Celery Compound, my dyspepsia is gone, and I do not have any more headaches. I feel better than I have for years."

Posterity of Drunkards,

A professor of Bonn university in tracing the posterity of habitual drunkards has found \$34 descendants from a woman who for forty years was "a thief, a drunkard and a tramp" and whose miserable life came to an end in the last year of the eighteenth century The professor has traced the lives of 709 of this woman's descendants from youth to old age, and of these 142 were beggars and 64 more lived on charity. There were in the family 76 convicts, including 7 murderers. The professor estimated that in seventy-five years this family has cost the German authorities in almshouses, law courts, prisons and other institutions about \$1,250,000.-Chicago Journal.

Friendship.

There are two elements that go to the composition of friendship, each so sovereign that I detect no superiority in either, no reason why either should be the first named. One is truth. A friend is a person with whom I can be sincere. The other element of friendship is tenderness. When a man becomes dear to me I have touched the goal of fortune.-Emerson.
