A Lie Nailed

A few knockers in the paint business may tell you as they have told others, that Sherwin-Williams paint wont wear-Why! They will say Huntley himself tried it on his own house a few years ago and that it pealed off and had to be renewed in 2 or 3 years.

Now this is the lie that is nailed-C. G. Huntley did use a mixed paint on his house some years ago that failed to wear as well as it should, but it was not Sherwin-Williams-Had it been, the house and its paint would not now be food for knockers and gossipers. Long ago we discontinued handling that unsatisfactory paint; and we might add here for our friends information that those houses which did not wear as they should, were repainted without expense to the property owners.

Last year our increase in the sale of Sherwin-Williams paint was only equalled by 3 agents in Oregon. At the rate Sherwin-Williams is going this year our increase will be equalled by no agent in the state.

Come in and let us figure with you on the best paint made.
