Every turn in the stream reveals a nook in which strange wild flowers nestle. The gentle excitement of the sport prevents the scene from becoming monotonous. The element of chance, the uncertainty of the catch, add the drop of tabasco sauce which gives zest to the day. And the noontide meal by the brink of the stream! When did a meal have a more delightful flavor? Delmonico never served a trout like unto those we have eaten by the banks of a mountain

brook with the clear blue sky above, the waving forest round about and the murmuring stream at our feet. The hour of contemplation comes

afterward, with the pipe of peace in our hand instead of the relinquished rod. How far off the city seems! Are there such things as corporations, trusts, stocks, bonds, electric lights that amaze the sight, barsh warnings of trolley gongs, the rumble and grind of the wheels and the brakes on the elevated road which affright the ear? The harshest note that breaks the stillness here is the boom of the bittern in

the distant marsh. Home to camp the fisherman goes, taking a cast in this slient pool in which the trout rose in the forenoon to his cast, but missed the fly, or in that dark hole deep under the bank

However, I don't believe any case exists which Doan's Kidney Pills will not help. I had severe backache and weakness of the kidneys for years My back ached at times so that I could hardly get up from a cough and the kidney secretions presented a very unnatur-al appearance, and deposited a heavy sediment if allowed to stand long enough. I spent lots of money when living in the east in trying to get something to effect a cure. I came out here to Port-land twelve years ago thinking the change of climate might benefit me but the trouble still clung to me. I paid one doctor in the town \$75 for m.dicines, but I might just as well have taken so much water so far as any benefit was concerned. Sta bel called on Shoenborn while at work in the potsto field. He wastalking to the old man when Albert, one of the boys, came near him. They had a dispute about something or other, which ended in Shubel calling Al, a fon of a female dog, the result was his nose came in con-tact with Al's fist. They came closer, hugged and in so doing fell to the gro nd where they remained until they were where they remained until they were out of breath.

Getting up the old lady parted them and everybody thought the fun was over with. Shubel drew the crowd's attention his

way once more, by saying he would cut the giszard out of the whole family, drawing his jack knife he was about to commence, when Frank jumped on him and he came in contact with mother earth for the second time.

Jones a hop grower, who was taking in the fun thought Shubel was'nt using the knife in a proper way, so while Frank held him, Jones took the knife from him, and put it in his pocket. Shubel was released and was not long in making his way to the county road. In search to his fighting one at a time.

The Hookah In India.

The hookah is smoked as a refreshment and sign of fellowship by the natives of India and not merely as a luxury. When a group of natives are seated together and, as is the custom, the hookah is passed around to each in turn it is considered very bad manners for any one to decline to have a few puffs. If the hookah is thus refused in a friend's house or while one is the guest of another it is regarded as an insult. If for any reason a native is put out of caste the fact is strictly

marked by his former caste fellow's refusal to smoke with him, and any one who eats, drinks or smokes with an outcast is himself outcasted .-Chambers' Journal.
