

A FAMILY REMEDY.

Pe-ru-na in Use in Thousands of Homes.

Congressman H. Henry Powers, of Vermont, writes from Morrisville, Vt.:

HON. H. H. POWERS.

"Peruna I have used in my family with success. I can recommend it as an excellent family remedy and very good for coughs, colds and catarrhal affections."—H. Henry Powers.

John L. Burnett, Member of Congress, Seventh Alabama District, writes:

"I take pleasure in testifying to the merits of your Peruna. At the solicitation of a friend my wife used it, and it improved her condition generally. It is a remarkable remedy. I can cheerfully recommend Peruna as a good, substantial tonic, and a very good catarrh remedy."

Pe-ru-na Cures Catarrh.

Half the ills of life are due to catarrh and catarrhal derangements. Peruna is the only internal, systemic catarrh remedy known to the medical profession.

Peruna cures catarrh wherever located. Peruna is not a guess nor an experiment—it is an absolute, scientific certainty. Peruna has no substitutes—no rivals. Insist upon having Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

—Colonel R. A. Miller one of Oregon City's most prominent land attorneys and pleasant gentleman returned to his home in this city on last Saturday after an absence at Cathlamet, Wash., of several days, where he was engaged in the trial of one of the most important logging cases that has come up in the courts of the state of Washington in recent years. Colonel Miller was feeling quite good and had reason to do so. The case at issue was between J. B. Yeon, who had the logging privilege of the Elochomen river and who sued Henry E. Armstrong for \$4,000 for tolls on logs floated down this stream. There had been some arrangement by which each was to pay his prorata of the expenses of keeping the stream open for logging purposes. Colonel Miller represented the defendant in the action of Mr. Armstrong and filed his counter claim against Mr. Yeon amounting to \$153 more than the claim for which the complainant had instituted his action. The case came up in the Circuit Court before Judge Rice and every step of the way was bitterly contested. There were two attorneys for the complainant and three for the defendant. The case was submitted to a jury after full argument and the jury gave a verdict for Colonel Miller's client for every dollar he claimed, wiping out entirely the \$4,000 claim for which Yeon had instituted his action. The outcome of the trial is quite a compliment to Colonel Miller and the other lawyers engaged with him.

Scissorettes.

Marshall (Tex.) Messenger—Strange times we are living in. A Smith county negro shot a white man in his orchard. The next thing we hear a negro will catch a white man in his hen house.

Shortly after the death of an incorrigible office seeker, a well known journalist was asked to suggest a suitable epitaph for his tombstone. The journalist suggested the following: "Here lies John Jones in the only place he never applied."

A country paper tells of two little boys who asked their mother if they might play store in the dining room. "Yes," she replied, "if you don't make much noise." "We'll be quiet about it, mem," said one. "We'll be storekeepers that don't advertise."

SERVANTS IN ECUADOR.

The Traveler is Forced to Hire Many to Serve Him.

If you were living in Ecuador and wished to hire a servant you could hardly get one by himself or herself, but would be compelled to take up with a drove of them, probably far outnumbering your own family. For example, with a cook you would have to receive her husband and children, and perhaps also her father and mother, into your house to bed and board, and each would bring along all his or her portable property, consisting mainly of domestic pets, such as pigs, chickens, rabbits, dogs and other "live stock." The husband may have some trade which he follows during the day, but at meal-times and when night comes he returns to the bosom of his family and yours. It would be considered downright inhumanity to refuse them food and shelter, and not a servant in Ecuador would work for so mean a master or mistress. The children of your cook may be utilized for light services, such as running errands, weeding the garden and tending the baby, but the numerous brood is apt to be "light fingered" and certain to be lousy, dirty and probably diseased. There is no help for it, however, because "el costumbre" has decreed that for every servant you hire you must expect at least a dozen extra mouths to feed.

Nor is this the worst of it. Occasionally the cook's relatives from another village come to pay her a visit of a fortnight or two—lasting as long as you will tolerate it—men, women and children, bringing more dogs, pigs, chickens, etc., to be housed and fed. Fortunately, they are not accustomed to "downy beds of ease" or sumptuous living, but consider themselves in clover if plentifully supplied with beans, corn meal and potato soup, and will sleep contentedly on the stones of the patio or the straw of the stable. The danger is that some of the stranger hangers on may not be as honest as the cook herself is supposed to be, and cases are known where thieves and even murderers thus gained admission to the inside of the casa with disastrous results.—Philadelphia Record.

How Climate Has Changed.

In Switzerland a mean temperature equal to that of north Africa at the present time is shown by its fossil flora to have prevailed during the miocene or middle tertiary epoch. Anthropoid apes lived in Germany and France; fig and cinnamon trees flourished at Dantzic; in Greenland, up to 70 degrees of latitude, magnolias bloomed and vines ripened their fruit, while in Spitzbergen and even in Grinnell Land, within little more than 8 degrees of the pole, swamp cypresses and walnuts, cedars, limes, planes and poplars grew freely, water lilies covered over standing pools and lilies lifted their tall heads by the margins of streams and rivers.—Edinburgh Review.

When the Barber Was a Wit.

In original literature the barber is a great figure, and Arabian tales are full of him. In Italy and Spain he was often the brightest man in town, and his shop was headquarters for wit and intrigue. Jasamin became famous as a poet in southern France and recited his verses with razor, scissors, brush and comical gestures as he dressed the hair and beard of fine ladies and gentlemen in his shop. He had a great run, made money, lived fame, and Smiles made a book about him.

Her Advantage.

"Oh, dear!" said little Harold's mother, who was somewhat rheumatic. "I seem to ache all over." "Well," said her sweet child, "I'm sorry, but not as sorry as I'd be for father if he felt that way." "Why would you feel more sorry for your father, love?" "Cause they'd be such a lot more of him to ache."—Chicago Record-Herald.
