The Lee boys of Canby are drilling a well on the farm of Lorenz Krus, at Frog Pond, his old well having gone dry. They drove a well on the Sharp farm, near by, going down 170 feet and obtained abundance of water. One of the most remarkable occurrences that has been brought to our attention recently was the finding of the dead body of two cows on the West Side last Sunday. Two immense piles of cordwood had been stacked up side by side to a height of 12 feet, leaving an alley way open at but one end and into this opening walked the two animals, one after the other. The animals were unable to turn around and not being intelligent enough to back out, slowly starved to death. The cows were missed and search was instituted for them and the owners finally became convinced that they had been stolen and gave up the search. The stacks of wood were in an unfrequented spot and it was the merest accident that brought about their discovery.

Last week a meteor, or what is supposed to be a meteor, was found on the West Side two or three miles from Oregon City. The daily papers have been using a considerable amount of stuff about the celestial visitor and something new is discovered about it almost every day. When first found it weighed, according to newspaper reports, in the neighborhood of eight tons. A few days later it weighed, according to reports to the same paper, about 20 tons and had grown from three feet in height to about ten feet and had increased proportionately in dimension. Later, the same versatile reporter sent a story to his paper that the meteor had been fencied in to hide it from view of profane eyes and that the owner was guarding it night and day to keep it from being stolen. We haven't seen the meteor, nor haven't seen any one who has seen it, but we are of the opinion that if it weighed as much as the reporter stated that it is still there and is in no danger of being stolen.

You will not want to miss any details, and if you subscribe now your year's subscription will cover the campaign from beginning to end. The Thrice-a-Week World is absolutely fair in its political news. Partisan bias is never allowed to effect its news columns, and Democrat and Republican alike can obtain in its pages truthful accounts of all the great political contests. In addition to all the news, the Thrice-a-Week World furnishes the best serial fiction, elaborate market reports and other features of interest.
