

Y. M. C. A. Opens.

The Young Men's Christian Association of Oregon City has again opened its doors this week for the winter's work and will offer a place of amusement, rest, recreation and self improvement to the men of this city.

For some time past there has been an urgent demand for a free reading room and place where a young man might enter to spend the evening without going to saloons or other questionable places of resort.

The lines of work to be carried on will be as follows:

A public reading room equipped with a goodly number of the latest and best newspapers of the Northwest and leading magazines of the United States also a number of standard books by popular authors, books of reference, etc. All men are welcome to this room which will be open from 8 o'clock in the morning until 10 o'clock in the evening.

A game room will be supplied with ping pong, chess, checkers, crockinole, curlard, etc.

The gymnasium consists of an excellent floor, and sufficient apparatus to suit the needs of the young men of the city for some time to come. Classes in physical culture will be carried on for the business men, young men, boys and ladies. Already a number of patients have been sent to this department by physicians of the city.

Fine showers and a tub bath are extensively used and are free to members. Last year this department was a strong drawing card and the outlook seems to indicate a still larger patronage this season.

Educational work is also a very important factor and one not to be overlooked by the young man who is working during the day and wishes to improve his opportunities during the evenings. Immediately after the book-keeping, shorthand, typewriting and arithmetic and possibly in vocal music. All work except the music will be taught in the same manner as in a business college. Any student may go as fast or as slow as time and ability will permit. All work will be individual and no one will be held back or crowded ahead to accommodate another.

Entertainments of various kinds will be a feature of the work but only those of real value and merit will be offered to the public. Basket ball and indoor baseball will be an interesting part of this work.

The religious work of the Association has not been fully outlined but it is known that bible classes will be organized and made a specialty. Other lines will be taken up as they are considered advisable.

All men are welcome to the rooms and will be shown through the rooms with the utmost courtesy and may have the work fully explained to them.

**Fight Will Be Bitter.**

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. (Read what T. R. Beall of Beall, Miss, has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and our bottles entirely cured her. Guaranteed by Charman & Co. Druggist. Price 50c, and \$1.00. Trial bottles free.

**Revolution Imminent.**

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the Kidneys and Bowels, stimulate the Liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by Charman & Co. Druggist.

**WHO IS TO BLAME?**

The citizens' Industrial Association which met in Dayton, O., last week, before its adjournment, resolved against members placing the union label on articles of their own manufacture. The platform adopted by the association is of great interest and reads as follows:

"Present industrial conditions have become so deplorable by reason of the indefensible methods and claims of organized labor that the time has come when the employing interests and good citizenship of the country must take immediate and effective measures to reform and enforce those fundamental principles of American Government guaranteeing free competitive conditions.

"In its demand for the closing of shop organization, labor is seeking to overthrow individual liberty and property rights. Its methods for securing this revolutionary and socialistic change in our institutions are also those of warfare. Because of this warfare, the industrial interests of the Nation during the last few years have been injured to an irreparable degree.

"Many firms have been driven into bankruptcy, and many cases are innumerable in which workmen have been disabled, and even murdered, while numerous families have been rendered destitute by reason of the tyranny and seditious attacks upon society by the strike organizations. A condition of anarchy has existed in some states, and, in fact, the lawlessness committed under the sacred name of labor are of such frequent occurrence that the public sense of their enormity has become blunted.

"The period of great prosperity brought about by the unrestricted operation of the law of supply and demand is also becoming destroyed by the acts of violence of organized labor, and, as a result, we are now confronted with the possibility of a period of depression.

"While we most emphatically object to being classed as enemies of organized labor conducted upon lawful and beneficial lines, yet we are unalterably opposed to the present programme of boycotting and tyranny now being carried out by the asjority of labor unions.

"We, therefore, urge the rapid organization of those who believe in the maintenance of law and order and the perpetuation of our free institutions, to the end that they may wield their full and proper effect upon the destinies of the nation. Since labor organizations exist for the apparent purpose of defying law and common sense, and are able to intimidate the influence of men and municipal authorities, there is no alternative left to those who desire to preserve bearable conditions in our body politic than that of forming counter organizations. It is only through the machinery of organization that we hope to exercise a potent and salutary influence over public thought and the conduct of public officials to the end that the rights of American citizenship can be assured to free and independent labor the rights of property maintained and legislation of a socialistic nature prevented from being enacted into law.

"We invite all associations, local and National, that sympathize with the purpose of the Citizens' Industrial Association of America to enter into affiliation with us at the earliest possible time, and we urge the immediate formation of local branches of the National organization in all cities and towns where our organization now exists that are eligible for membership in this association."
