Shoes. If there is anything more than another which brings comfort to humanity, it is Dr. Reed's Cushion Shoe. This shoe was invented by Dr. A. Reed, a leading chiropodist of St. Joseph, Mo., who has effected many cures by the use of it. He says it is almost impossible to cure any of the ailments of the feet without first removing the cause, viz.: the hard insole of the ordinary shoe. The invention has for its prime object the production of a shoe to be worn by persons who suffer from corns, bunions, ingrowing and club nails, tender, burning feet; enlargement of the metatarsal and metatarsal joints—in fact, all the ailments the feet are heir to. This shoe however, is designed not alone for those who are troubled with the various ailments mentioned, but is being worn by thousands who desire to keep their feet in perfect condition. The best shoe ever made for hot, cold, damp, aching, sore, tired, tender, perspiring feet. Dr. A. Reed's Cushion Shoes make sidewalks and hard floors feel like velvet carpet to the feet. We carry full line of Dr. Reed's shoes for men and women.

No work of the kind has ever been so badly needed as this. The trestle is long, high, the rails are light, and the greater part of its length there are no guard rails, and on the whole it is a dangerous piece of road. It has been feared for some time that the Smith family might become extinct; but the arrival of a ten-pound boy last Wednesday, the son of Mr. and Mrs. Fred Smith of Park place, dispels any fears on that score. The mother and child are doing well, and Fred has grown taller by about three inches. There will be the regular services at the Baptist church on Sunday morning. When completed to its terminus back of Canemah, at the foot of the Lawton farm, the road will give farmers easy access to Main street from Mt. Pleasant, without the round-about journey which is now necessary. Now is the time to clean house—clean your system first, drive out the microbes off winter with Hollister's Rocky Mountain Tea. Circuit Court Notes. The case of Marquett vs Jewell was decided in favor of the plaintiff. The suit was one to secure the release of a mortgage and the amount in the controversy was \$15. The suit cost the county about \$100 and the decision carries with it a judgment of \$100 against the defendant. In the case of Thos. Devine vs Proctor & Beers, verdict was in favor of the defendants. The question at stake was whether the defendants should pay a note given for a certificate covering some government land, claim on which was lost in an effort to secure lien land. Permission was asked for ten days in which to file motion for new trial. In the case of U'Ren vs Ganglebach, action for recovery of money paid on security note, verdict was given for plaintiff. Motion for new trial was made. The case of the Oregon Iron & Steel Co. vs. Elias Hughes in regard to the ownership of the meteor which has attracted so much attention, will come up Thursday. The case of Mullin vs O. W. P. & Ry. Co., case of killing a cow, will be the next on docket. Motion for new trial has been made by Multnomah County against the Willamette & Columbia River Towing Co. on account of damages to the Morrison street bridge which occurred as the defendants were towing the Almond Branch to the lower river. As the decision now stands, the defendants were found not liable. The Microscope and Its Revelations. Friday evening of this week, Rev. J. H. Beaven will give a lecture on the above theme at the Baptist church. He is to illustrate his subject with photographs taken by the aid of the microscope and projected on the screen by the lantern. Rev. Beaven has owned the microscope and has done quite a great deal of work with it, and will talk largely with the knowledge of one who has made his own investigations. He is to speak of the structures of insects, the flea, fly, spider and bee, as also of the construction of chalk, of woods and coal, and show some parasites bacteria and the germs that produce disease. Altogether it promises to be a very pleasant and profitable way of spending an evening, and we believe it will be the first time that such a subject has been presented from the platform in this city. The admittance has been put as low as possible so as not to exclude any who would desire to attend. Advertisers Letters. The Punkin Husker. This comedy will be seen at the Shively opera house on April 29. The play, as its title suggests, is a rural comedy. In some of the central states a countryman is called a "punkin husker," and this is where it derives its name. The scene is laid in Southern Indiana, and the author has drawn his characters from the quaint people of that section. Natural, consistent and true to nature, brimful of good clean comedy, the author has avoided the pitfalls of buffonery and horse-play, relying upon pure wit and good situations for his methods of provoking laughter. While a comedy in every sense of the word, the piece is not devoid of sensational features of which it contains enough to satisfy the cravings of the most exacting. The free-for-all fight between a score of harvest hands; the county fair with its quota of grafters, vendors and rustics, are but a few of the many scenes that are exciting enough to thrill the most seasoned theatre goer. The personnel of the company is extensive, and is headed by Emma Davis, Percie Martin, George Morrison and Allen T. Friaby. The very best styles in hats. Miss Ceila Goldsmith.

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty. If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle free of charge by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
