Monday evening one of the largest salmon of the season was caught near Oregon City. On being placed upon the scale, its weight was registered at 46 pounds. Those being caught now are of the spring variety and are on their way to the upper waters of the Clackamas river there to spawn. The Clackamas river is one of the few rivers of Oregon in which the spring salmon enters in numbers and is perhaps the only one that is holding its own in regard to the number entering it. The credit for this must be given to the State Hatchery located some sixty miles above the junction of the Clackamas with the Willamette. It is hoped that the Government will again take up the question of propagating the fall salmon which are of questionable value. The success of artificial propagation is no longer a debatable question. The question now is the choice of the best varieties.

#### WHAT THIS MAN SAYS

Only Re-echoes the Sentiments of Thousands of Our Republic.

The Oregon City reader is asked to thoroughly investigate the following: This can readily be done, for the gentleman whose statement is published below will be only too pleased to answer any communications mailed to him if the writer really suffers from the annoying consequence which always attend inactive or weakened kidneys.

J. Jenkins, of 315 East Sixth St., Portland, Oregon, now retired from active life, says: "I think very highly of Doan's Kidney Pills. I used them for an attack of acute backache which had annoyed me for some little time. Three days after I began their use I knew they had gone to the cause of the dull, dragging pains across the small of my back and relief came sooner than I expected. I believe that the cure is permanent for I have not felt any symptoms of a recurrence. Other members of my family have also used Doan's Kidney Pills with equally good results."

Plenty more proof like this from Oregon City people. Call at C. G. Huntley's drug store and ask what his customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
