#### Important Cases Decided.

In the circuit court of Multnomah county the decision has been handed down that P. M. Marquam is entitled to the ownership of the building of the same name. The opinion is considered one of the most technical ever given in Multnomah county. The property has been held four years by the Title Guar-antee & Trust Company under foreclosure proceedings and the point to the decision was that as the company had acted as a trustee for Marquam it could not bring suit against him.

On Sunday morning at 8 o'clock, the Chinese inmates of the tailor shop of Him Keey & Co. were awakened by blows on the wall by their neighbor of the candy store. They were aroused none too soon as their quarters were filled with smoke. The roof was burning. Arrival of the fire department's outfit confined the fire to its starting point, the damage to the candy store being nominal. The injury to the building, which belongs to the John Schram estate, is at least \$100. Him Keey places his loss at \$3000, covered by \$2000 insurance. He says the fire started in the upper northeast corner of the building, through some means for which he could not account. They had had no fire in the stove since 9 o'clock the evening before. An on-looker at the fire, while firemen and non-firemen were pouring streams of water into it, re-marked, "If God Almighty didn't look out for Oregon City, it would burn down." There was some truth in what he said. Getting a strong stream of water on the fire was delayed, because there was at first no pressure. Unless a man, familiar with the mechanism of the pumping station, is kept there at all hours of the day and the night, to promptly turn off the pressure which torces the water up the bluff and into the reservoir at Ely, in case of fire on or near Main street, the day may come when we will be very sorry for our neg-

# Soda Fountain

We take a lot of pride and interest in our Soda Water department --- so much so that we have one of the finest soda fountains in the state. We also have an automatic carbonator which keeps the carbonated water exactly the same all the time. With this new carbonator working automatically you never get flat or insipid soda such as you so often get from the old style fountain. Then when it comes to making ice cream we are right at home---We could buy our ice cream ready made cheaper than we can make it ourselves, but we know from our long experience in the business that there is only one right, way to make ice cream and that is with pure sweet cream. We know that ice cream made with starch, flour or gelatine, made to keep for hours, with being packed in ice is unwholesome and injurious, and no matter how NICE it looks it is a good kind to let alone. Our ice cream has always been the talk of strangers and visitors here; hundreds of people wonder why they cannot get such ice cream at home or in Portland; such talk at our fountain is about as common as expressions regarding the weather.

It is because our ice cream is pure and made right and without regard to cost. Be sure and get a free ticket with every soda for a chance in the 5 lbs. of Lowney's Candy given away every Saturday.
