Three cougars fell before the trusty rifle of Antonio Habelt at Dodge last Wednesday, thus proving himself probably the champion cougar hunter in the county. Mr. Habelt is an extensive catle raiser of the Dodge country and has been much annoyed during the past few months because of the depredations of the wild animals, as he missed many of his calves. Rifle in hand he determined to avenge the death of his cattle and last Wednesday came across a trio of cougars in the woods, which he brought down in one, two, three order. The last animal killed was 10 feet in length. Residents

of the Dodge neighborhood state that cougars are more numerous this summer than for many years and the reason for this is said to be the increasing number of cattle pastured in the foothills, upon which the cougars prey. The ranchers say that berry pickers should be careful not to allow children to stray away from their parents into the woods, as it is likely that cougars would not hesitate to attack them should they become separated from their companions.
