Sander's Disk Plows Plow Hard Dry Ground. DON'T NEED TO WAIT FOR RAIN. PLOW NOW. When the ground is dry Sander's disk plows do the best work. Lightest weight, lightest draft, lowest price. All necessary adjustments—nothing to get out of fix. Solid steel frame. Rigid and Strong. Adjustable to 8, 10 or 12 inch cut. They are a pleasure, read and see. Albany, Ore., on Aug. 25, 1904. Mitchell, Lewis & Staver Co., Portland, Ore. Gentlemen: I have just returned from starting the Sanders double disk plow at Junction. As you well know I have always thought the Sanders disk plow all right but I must confess I was somewhat surprised today when we started it in land that had not been plowed for two years and had been stocked heavy since. It was just as hard as a road bed. The plow was a double disk as the man had four small horses and wanted to plow deep, he concluded to take one disk off and use only three horses which he did. We put the plow down 8 inches (actual measurement) and to say it did the work, is putting it mildly, and to say that the farmer as well as Mr. Wilhelm, the agent, were pleased is putting it lightly, they were simply amazed as well as myself. I enclose you order of Wilhelm & Sons for two more double disk plows. In conclusion I will say the Sanders plow is head and shoulders above anything I have seen. Yours truly, (Signed) P. E. THOMASON. Junction, Oregon, Aug. 25, 1904. Mitchell, Lewis & Staver Co., Portland, Ore. Gentlemen: Am pleased to advise you that I have seen the Sanders double and single disk plow tried on my land, which hasn't been plowed for several seasons and that the work was fully satisfactory. I have bought of the Sanders double disk plows and recommend same as being fully as recommended, besides having a steering gear which adds greatly to the ease in plowing. (Signed) A. JESKE, by G. J. W.
