The Canby Lodge, No. 156, L. O. O. F., and Kirk Rebekah Lodge, No. 124,

the best players from several of the best teams between Oregon City and the Cascades. They went to Molalla with the intention of getting to go home with an easily won victory.

I am here to give a sample of the playing (or "umpiring," as our Shubel friend would have it.)

Molalla at the bat, with a base runner running toward second and one at third on his way home, the catcher with the ball in hand, making a motion of throwing to second, but throwing it at the third baseman, who watching the pitcher with smiling face, lets the ball pass by untouched and into a fielder's hands, who throw it over the backstop. The result of this was two scores for Molalla, yet no one out. After the score had been announced, which was 13 to 4, Shubel "hit the pike," dissatisfied with the results of the game, umpire, weather or score. Discounting one score for Molalla on account of poor umpiring, and concluding to score at least one home run for Shubel, which of course, would make it 12 to 5.
