Hunt's gray, of Eastern Oregon was put against McCormick's sorrel, of Sandy, and in a 300-yards run the gray came out by a day "light" ahead. Another race took place between two local horses that caused a good many coins to change hands and excitement galore. THE WAY TO GET FALL GRAIN

USE A

Sanders Disc Plow

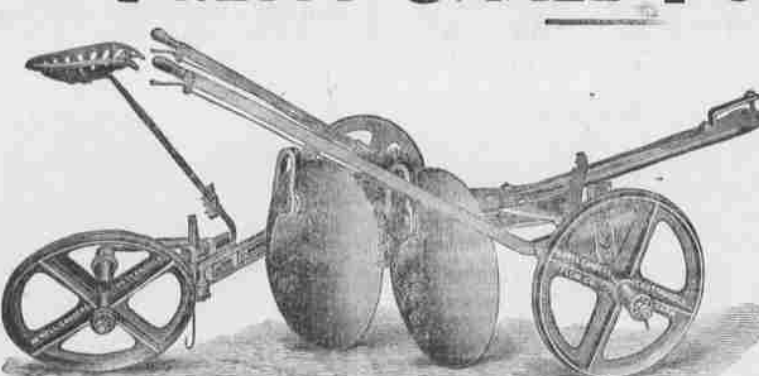

No Ground

TOO HARD
TOO STICKY
TOO STONY
TOO ROOFTY
TOO DRY

For Sanders Plows

Leave the ground smooth and fine, equal to one harrowing; leave bottom of furrow loose. They weigh less, run lighter, are simpler than other disc plows, turn both ways. Made in 1, 2, 3, 4 and 5 disc sizes. Can be changed from one number of discs to another. The only disc plow with a frame strong enough for engine plowing.

PRETTY SMALL POTATOES

Describes other diggers when compared with the

Hoover

Designed and built by a potato farmer, Mr. Hoover, it combines all the features that go to make a perfect digger. He wanted the best, so he made it himself. It goes down under the potatoes, elevates the dirt, potatoes and vines, and

separates them one from the other, putting the potatoes out behind the machine on top of the dirt, and the vines to one side between the rows of potatoes. NO OTHER MACHINE WILL DO THIS. Ask us about the Hoover and the Hoover Jr.

The Plows will soon be Going

In thousands of stubble fields. The grain will be harvested, the cultivated crops laid by, and between the click of the harvester and the hum of the thrasher, millions of acres of stubble will be turned up to the friendly elements. The rapidly-moving seasons make it necessary for the farmer to plan ahead, and though in the midst of the rush of haying or harvest, the provident man is even now figuring out his requirements for the remaining months of the year. This leads us to say that in the line of FARM IMPLEMENTS and VEHICLES we are prepared to take care of your every requirement promptly and efficiently. You may or may not do any Fall plowing, but if you do, a

John Deere Plow

Will, of course, figure in your calculations. But plows are not all we have to offer. We are stocked with everything you will need for the balance of the season. You know how urgent the case will be when the time comes, and we would like to impress you with the desirability of taking advantage of the after-harvest lull to prepare yourself with up-to-date appliances for the stirring business of the Autumn.

Come in and get your eyes and ears filled with the good things we have to show you and the better things we have to say about them. Do it now.

CLACKAMAS

Clackamas Grange met Saturday, August 6, in regular day meeting. The contest was conducted in a fair and generous spirit and defeat was gracefully accepted.

On Saturday, August 19, the brother grangers and any who may be interested to help will meet at 8 a. m. at Grange hall and proceed to the lots owned by Grange No. 298, for work of clearing. The sisters of the Grange will furnish dinner at the hall to all workers.

It is reported that a wedding is to take place in Clackamas this week.
