

NEWS OF THE COUNTY

WILHOIT.

We see an article from Mr. Riggs, of Canby, concerning our game law, thinking there should be a bounty on wolf scalps so as to encourage men to hunt them, which would be a good thing. Many years ago there was a bounty on scalps and also farmers gave, some twenty-five cents, some more, some less. So the man that killed a wolf received about thirty-five dollars. There were certain days appointed to chase. The result was the wolves didn't last long and for several years there was no damage by wolves and we think it would work as well now as then. We think money paid to wardens is not very profitable. Some are afraid to carry their guns for fear of trouble. Some might kill some wolves while going after the cows on the range. There is no deer to bother us like the wolves and wild cats and cougars. Such things stay near farms.

The city election will be held on the first Monday in December. It is likely to be a tame affair as the change in the charter leaves Mayor Schindler and Councilman A. A. Webster in office until next year.

There is a big building boom on in Milwaukie, which will in part relieve the scarcity of houses for rent. A. J. Walker and F. H. J. J. SMITH, Proprietor

"Take Time by the Forelock"

Is a trite saying and a very old one, but is just as pat today as when it was first uttered. There is no line of business in which it is more important than in the business of farming. The successful farmer of today must plan weeks, months, yes even years ahead, and we want to suggest that right now is none to early to be figuring on what you are going to require in the way of agricultural implements before next spring. We are already preparing to supply our rapidly growing trade, and we want to say to you that we are going to have a fuller, finer, more complete, more up-to-date stock of farm implements and machinery than we have ever shown. It will include a complete assortment of the JOHN DEERE PLOWS and other John Deere Goods, selected with special reference to the demands of this market. We are going to show you such a quality of goods and at such satisfactory prices that when you see them you will not even think of looking elsewhere for what you want.

We want the trade of every farmer in this community. We want YOUR trade, and we are going to get it if good goods, right prices and a "square deal" will bring it.

If you want anything out of the regular line come and talk it over. We have a lot of good things that you may need for fall and winter use. Come in and see them.
