

ROYAL Baking Powder
Absolutely Pure
A GRAPE CREAM OF TARTAR BAKING POWDER
It makes the most delicious and healthful hot breads, biscuit and cake

FREE FROM ALUM, LIME OR PHOSPHATIC ACID
 ★ ★ ★ ★ ★ ★ ★ ★

Alum baking powders are unhealthful. Do not use them for raising food under any circumstances. So detrimental are alum baking powders considered, that in most foreign countries their sale is prohibited. In many States in this country the law compels alum powders to be branded to show that they contain this dangerous acid, while in the District of Columbia, Congress has prohibited the sale of all food that contains alum.

Alum baking powders are sold to consumers at from 10 cents a pound to 25 ounces for 25 cents, or 25 cents a pound, and when not branded may generally be distinguished by their price.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wasting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh Scott's Emulsion should be taken immediately. There is nothing that will repair wasted tissue more quickly or replace lost flesh more abundantly than Scott's Emulsion. It nourishes and builds up the body when ordinary foods absolutely fail.

We'll send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
