

Royal Baking Powder

Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adulterated powder to save a few pennies?

IMPENDING REVOLUTION.

Socialist Candidate Gives His Views on Conditions of the Country.

BEAVER CREEK, April 11.—(Editor of The Courier).—Only fourteen years ago when a small portion of the farmers in this country banded together for political reform, little did men in power dream what stupendous results would follow. These toilers were denounced as hayseeds, calamity howlers and anarchists. They were held up to public scorn and to public contempt. The great newspapers of the land, the mouthpiece of tyranny, hounded these rugged citizens with a relentless aggression that revealed a motive that savored only of destruction. Undaunted and undismayed, patient and conscious of being right, these men of toil continued in their attempt to awaken their fellow citizens. They declared that equal rights no longer existed before the law; that men of wealth were given special privileges and advantages over labor; that justice had become a mockery and a delusion; that vice, crime and government were united in a bond of friendship. They told us that robbery, thievery and dishonesty were the distinguishing traits in our business concerns of every description. Do we wonder at the storm of passion and of ridicule they brought upon themselves. A government posing as the noblest, purest and most just, thus assailed? But time passed on and two millions of men were won to the belief that all is not well with Uncle Samuel. The year 1906 is at hand and how sadly true have these old heresies proven their accusations. All honor to them for their courage. How true that capital owns and controls the government of the United States! Nearly every senator or representative in congress is a corporation attorney or officer. Our courts are proving to be only a place of trial for the laboring man. The rich are above the law. When a poor man steals a loaf of bread he is sent to the penitentiary by our courts. When a capitalist steals a thousand acres of land from his government he is given a fine of \$1000, which is never paid. When a poor man out of employment begs for a meal he is promptly put in prison. When a banker robs the people of several millions, he goes free and is honored ever afterwards. Truly justice has become a mockery! The great business concerns of this country have become violators of the just laws of the land. They oppress the men, women and children who are their servants; they rob every citizen with whom they deal; they have no respect for laws made by states or the United States. They are above all political governments and they control it. They formulate the laws of industry and are the governors thereof. They are the masters of the world. The Rockefellerers, Vanderbilts, Morgans and their ilk hold the destiny of mankind in their hands today. Kingdoms, empires and republics alike are at their mercy. The unrest that is manifest in the world of labor at this time is full of ominous meaning. Let us not deceive ourselves in these momentous times of unrest. Revolution is in the air—revolution which will mean much for the future of mankind. Let us all as citizens of the world strive to bring about a just understanding of the rights of man. Let us labor for peaceful revolution, to the end that industrial government in the hand of the people shall supersede political forms of every character, and peace and happiness transform the downtrodden slave into a dignified citizen of the world.

ROBERT GINTHER, Socialist Nominee for Representative.

HAWLEY AT CANBY.

Brings Questions Home to Toozee That Are Unanswered.

CANBY, Or., April 4.—Mr. Hawley, in a speech here the other evening, with a candor which is characteristic of the man took up "the pass question" and stated plainly that in 20 years he had never used a pass but twice. On two occasions he was given and used a trip pass. In the campaign he is now conducting he is paying his own way wherever he goes. Has Mr. Toozee, as postmaster at Woodburn, traveled the whole of the eight past years on a Southern Pacific railroad pass or has he not? Has he been using and is he now using a pass as he travels over the district prosecuting his campaign, or not? If Mr. Toozee will not answer, will his organ at Canby please explain what it means by giving out the inference that Toozee is not riding on a pass? The Courier has stated that it has proof that Toozee does ride on a pass and we prefer to take its word rather than the hirings of Mr. Toozee.

ELECTRIC LIGHT AND POWER

A talk with us will convince you that **Electric Light** is the only light you can afford to use in your home, or put in the house you are building. Your property will rent more readily, will pay a higher income, and attract a better class of tenants if it is equipped with **Electric Lights**.

ELECTRIC POWER never tires, it serves faithfully, never complains. Requires little or no space, less care. Absolute adaptation to all conditions. Expense starts and stops at your command.

The use of **Electric Power** means: Great saving in machinery and initial cost in installation of plant, high **ECONOMY** in cost of operation, and an **INTENSIFIED PRODUCTION** possible only where **Electricity** is used.

Advantages in the cost of producing power in Oregon City in comparison with other cities of the country, enable us to make terms exceptionally favorable to manufacturers, and to furnish unequalled service at **Lowest Rate**.

ESTIMATES on cost of wiring, cost of current and information regarding the use of electricity for **LIGHT or POWER**, promptly furnished upon application to C. G. Miller at the Company's branch office, next door to the Bank of Oregon City.
