NEWS OF THE COUNTY

(Continued)

LIBERAL

Farmers in this section are nearly all done seeding and potato planting and gardens are the order of the day.

J. L. Udell sold the rest of his land at Wright's Springs to a man from the East by the name of Spencer, who will at once take possession.

Mrs. H. L. Barnes' sister has come from the East and they will locate probably in this county. Land is changing hands—let the waves roll with prosperity.

Not long until some one will know something more than they do about who will hold the offices of this county.

J. D. French returned home Monday from Portland. His daughter, Myrtle, was married Sunday to Hugo Seibles. Mrs. French will be home Tuesday. Their only daughter was married at high noon. May all the blessings of this life be with them.

William Morey has bought a lot of milk cows and will now be in the milk business. They all seem to think it pays and it is a good way to feed up what you raise, at least.

Deck and W. Skein drove ten head of their cattle to pasture near Willcox on Mrs. Barstow's place.

Our school teacher has quite a number of visitors at his school, mostly all of the fairest sex, at present. Nothing like giving a young teacher encouragement.

LOGAN

A. B. Strowbridge was out from Portland on business last week. He reports that his wife had been in a Portland hospital for some time, having undergone a surgical operation for removal of a tumor. Her life was despaired of for a time, but she has been removed to her home and is some better now.

James Connor is recovering from his attack of erysipelas. The last sowing of clover seed is now reported to be all right.

While the freeze injured the fruit crop to some extent there seems to be nearly enough left for a full crop, even of cherries.

James Chynoweth is up from San Francisco visiting with his brother William, who is now at home and getting along alright since his recent injury.

HARDING GRANGE

There was an attendance of 55 at the regular meeting on the 7th. The first degrees were conferred on a class of five, and two applications were received.

W. P. Kirchem, who was appointed at the previous meeting to investigate the mutual telephone system, reported that enough names had been secured to the subscription sheet, to

warrant the calling of a meeting for organizing to purchase the Bonney line. Accordingly, a meeting will be held at the hall on the evening of April 14, which all interested are invited to attend.

The lecturer's hour proved very interesting and instructive. S. E. Gerber presented the subject of road-making and said he was in favor of making good permanent gravel roads instead of using up valuable timber, which makes a short-lived road, for the most part, unsatisfactory road. Other speakers agreed with him. The matter of constant supervision and repair was urged as being the successful plan of Germany, Switzerland and other countries. Mrs. Z. A. Anderson led on the subject of kitchen floors and preferred linoleum to a painted or oiled floor. One brother suggested that linoleum is rather cold to bare feet and was told to use slippers. Another said that the way for a woman to keep the floor clean is to train her husband to clean his feet before coming into the house.

Fred Gerber, Louis Funk and others spoke on the subject of the use and care of farm machinery. Housing when not in use, care in oiling and keeping cutting parts sharp, bolts and taps tight and in proper position was urged as adding much to the life of a machine. Mr. Gerber highly recommended the German water hose for keeping razors in good condition.

O. D. Robbins, W. P. Kirchem and E. Newkirk discussed the subject of saving and applying manure. The first speaker was in favor of eight floors and gutters to save all liquid, as being the most valuable part of the manure, using straw or other absorbents to take it up. He has a truck wagon with wide-tired wheels and tight bed in which it is thrown as accumulated and it is scattered directly on the ground, preferably a sod, thus saving all loss by leaking in the barn yard; by heating and saving the labor of re-handling. Other speakers differed on some minor points.

A. M. Kirchem was the Mark Twain of the occasion. He said he claimed to be a progressive farmer and as such his plan is to turn the stock out and save all trouble with the manure.

The secretary reported that the Grange now has a membership of 130 in good standing.

MOLALLA

Weather is now made to order.

L. A. Daugherty got his leg broken last Friday. Dr. Powell went up and rescued the fracture. He is now resting easy at his father's home.

Carrie Schatzman had the misfortune to break her arm by falling off a fence last Saturday. Dr. Leavitt set the limb and the little sufferer is doing well.

Juvenile Grange was organized here by State Secretary M. S. Howard, Saturday, April 7, with some 35 members.

John Stubbs has the contract for

carrying the mail on Route No. 2, which began on the first of April.

Cattle are beginning to be started off for the mountains for the summer's outing.

Last Friday Ben Johnson had a runaway, upsetting the wagon and throwing Ben on one side of the road and his partners on the other, just before the wagon went to smithereens on a stump. One horse was badly hurt.

James Hanson died at P. M. Boyles' Sunday night.

Frank Metton is about again after his smash-up from falling off a load of hay.

Many Molallites are now down with the measles; it's the German-American kind.

Do you realize the great importance of attending the primary election this year on the 20th of April?
