RENAMING THE SIOUX.

SOME TWENTY-FIVE THOUSAND INDIANS ARE RECEIVING CHRISTIAN NAMES,

Educated Indian Tribesmen Selected by the "Great Father" to Re-christen Braves-Bob-tailed Coyote Becomes Robert T. Woli.

Uncle Sam has recently inaugurated a unique and ingenious project in con-nection with his Indian wards-or at least the most populous division of them. This is nothing less than a scheme for renaming every chief and brave, every squaw and papoose of the Sioux tribe. The object of this wholesale rechristening is to insure the right descent of property, something that has been attended with much difficulty under the old condition of affairs when the Sioux had no family name, and each redskin could be identified only by his own individual fanciful name, a cognomen which most likely had not the slightest resemb-lance to those of any of his relatives. The renaming of the 25,000 memstrange undertaking. SUSPICIONS OF THE INDIANS.

The President and his advisors reallzed from the outset that it would be one thing to give the Indians new names and quite another to induce the sons and daughters of the forest-ever suspicious of the white men-to accept and use these new names. However, the Great Father at Washingtop was fortunate enough to enlist the cooperation of Dr. Charles Alexander Eastman, a highly educated physician and clergyman, who is a full-blooded Sioux, and who came into national married Elane Goodale, the talented young New England poetess. At the President's solicitation Dr. Eastman. who is considered the best educated Indian in the world, agreed to personally undertake the task of inducing his people to adopt the system of family names desired by the government. Just what this responsibility meant

will be better understood when it is explained that not only was Dr. Eastman to visit all the Indian villages of the Sloux tribe and personally bestow names but he must also devise or in-vent the new names. Just imagine selecting given names for 25,000 persons of both sexes and apportioning perhaps half as many or one third as many different family names in addition.

In this portion of his novel missionary work for Uncle Sam the Name Giver, as the Sioux now term their educated tribesman, has displayed rare judgment and a fine regard for family history and tradition among the Sloux

been proven that the new system of names will be of the greatest benefit and value in insuring the cor-rect descent of Government allot-ments of land from generation to gen-eration. Incidentally it may be noted that even thus early this untangling of lines of descent has won for some Indians valuable property rights previously denied them. As a case in point it may be cited that only a few weeks ago Dr. Eastman was intrumental in securing for a young squaw 640 acres of rich land of high value which had been temporarily lost to her owing to her separation from her own tribe, and which an unscrupulous relative was on the point of selling when President Roosevelt's special commissioner stepped in and set things right.

'Phoning Through Flesh.

matter of that-is one of the weirdest

To talk through the human body-or a row of human bodies, for the

"Snatch it! Snatch it!" whispered Reddy the "lookout," pal to "Jimmy the Swift," who won this title from the lightning rapidity with which he was known to relieve men's pockets of the neutron of the reading he was about to shout with derisive laughter, when Jim, springing forward, collared him, of their contents.

In a moment the practiced fingers of Jimmy had skillfully extracted a flat seal purse from the pocket of a slight young man who was busily elbowing his way th ough the crowd that was besieging a belated Broadway car.

The day had not been a rich one for the "picks," and Swifty eyed the thin purse rather suspiciously. "Mighty slim-looking, hey, Red?"

THE NOTED SIOUX CHIEF, "BLACK CHICKEN."

end of the reading he was about to shout with derisive laughter, when Jim, springing forward, collared him, and with a tone utterly new to him,

said sternly: "Look here, Red! You and I's friends—that's all right; but as sure as I'm a thief, this here ain't no staff for a feller to laugh at!"

For an answer Red thrust his hands into his pockets, eying Jim curiously the while, and turned on one foot with a long low whistle.

a long low whistle. "I never had no mother," murmured Jim. "She died when I was a little chap, so I never knew her, but it must be awfully nice for a feller to have a mother like that to be good to him, and learn him things. Why, who knows, perhaps if you and me had had mothers like that livin', instead of bein' kicked 'round by the 'boss', who hever gets enough out of us, we might never gets enough out of us, we might a bad a good schoolin' and been mak-in' an honest livin', instead of thievin' in New York.'

These words of regret upon the past of his young life, and the expressed desire for something better, from one whose only home almost since in-fancy had been the street, and whose companions had been crooks and ne'er-do-wells, was too much for the incorrigible Reddy, whose worship consisted of heroes that were daring

villains, and not penitent sinners. He could hardly suppress his con-tempt for the, to him, now "Soft" Jimmy, hence he drawled, with a sneer:

"You-ain't-goin'-to squeal on ac-

count of that find, be you, Jim?" "See, there you are! Go ahead, Jim, Look at the bunch of greenles sticking out of the old feller's cont—quick, Jim!"

The habit of years could not be overcome in a moment. Goaded by his tempter, Jimmy stealthily leaped forward, and in a second his fingers would have been on the bunch of paper money which the evil eye of Reddy "spotted" in the old man's pocket. Like a flash came the sight of the purse, the gray lock of hair, the words in the newspaper that made such an impression upon him—no, he would not, he could not any more. His hand dropped to his side. The old man disappeared with the money,

safe from Jimmy's wicked fingers. Jim's head sank until his chin rested. upon his naked chest, his companion glaring at him with eyes furious with anger.

"Well, 'tai'nt no use," said Jim, quietly but firmly: "I couldn't, Red, somehow, after that—and I'll never try it again.

"You get another pal-if you want to-but I tell you that I ain't goin' to

One hundred and forty-five church edifices have already been erected by the Christian Scientists. These, as a "No, honey, dat he didn't. My marthe Christian Scientists. These, as a of the older denominations. It is said that when funds are no longer him." needed for the completion of the Mother Church a large number of buildings will be commenced in different parts of the country.

EARTHOUAKE RECORDERS.

They Are the Most Delicate of All Instruments.

The instruments invented for the recording of the motions of the earth's crust during an earthquake are looked upon by scientists as the most delicate of all machines. So highly sen-sitive are they, indeed, that the very slightest vibratory motion is recorded perfectly. Even the tread of feet cannot escape this instrument, if sufficient to cause vibration.

There are three classes of instruments for the automatic recording of earthquikes, each with its own partic-ular function. First is the seismo- kin!"
