

# KLAETSCH IS INJURED MAN

### Behaved In Such a Manner as to Destroy Confidence—Made Life a Burden.

According to the allegations of Otto C. Klaetsch, made in the Circuit Court yesterday, his wife left home so many times and behaved in such a manner as to destroy his confidence and render his life burdensome and unbearable, and he brings suit for a decree of divorce, through his attorney, George C. Brownell.

The defendant is Lelah Klaetsch and she was married to the plaintiff in Westport, Clatsop County, Or., December 16, 1896. They have two children, Margaret, aged three years, and Viola, aged two years. Mr. Klaetsch says that his wife is not a proper person to have the care and custody of these children. He is a well known farmer of Garfield.

The complaint recites that January 91, 1901 Mrs. Klaetsch left home with no reason and remained away until June of the same year, when, upon her promise to conduct herself properly toward the plaintiff and to live a proper life, he took her back to his home and treated her properly. May 7, 1902, she again left home and remained away until November 17, 1902, when she came back and stayed until June, 1903. She became restless and left home once more returning in April, 1906, but stayed only until July, 1906.

Klaetsch says that his wife has been guilty of improper conduct with William Pinkley, receiving a letter from that person, in which he used the most affectionate and endearing terms toward Mrs. Klaetsch, advising her to poison her husband. The injured husband claims that his wife received money from Pinkley

Abstracts made and money loaned. Mortgages foreclosed, trusts executed, estates settled and titles perfected. J. F. Clark, Atty at Law, President and Manager. Over Bank of Oregon City.

#### SAWDUST IN STREAM.

##### Deputy District Attorney Investigates Large Quantity.

Deputy District Attorney C. Schueler made an investigation Friday of the conditions in the Upper Clackamas relative to dumping sawdust into the river, and found whole wagon loads in the bed of the stream. With this evidence at hand he will arrange for another trial of C. E. DuBois, of Estacada, who was arrested two weeks ago on a charge of dumping sawdust into a stream tributary to the Clackamas River and after a trial in the Justice Court in this city, the jury failed to reach an agreement. Mr. Schueler states that he was astounded at the evidence that the river showed and will prosecute the case vigorously.

#### A Badly Burned Girl

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekonsha, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest Pile cure known. Best healing salve made. 25c at Howell & Jones drug store.

## TOWN ADORNMENT.

### EFFECT OF CIVIC IMPROVEMENT AS SEEN IN MISSOURI.

#### How Women's Clubs and School Children Co-operated in the Cleaning Up Campaign—Communities That Are Most Active in the Work.

While the town beautiful is not alone a Missouri institution, the movement has perhaps advanced further in that state than in any other, says the St. Louis Post-Dispatch. There are two causes for this. One is the club women of the state, the other the school children. Co-operating effectively with these are mayors and sometimes city councils of the towns and civic improvement societies.

Last, but not least, are the people. The people, as a whole, have responded readily to the campaign of education carried on by the women and children. They have not been lacking in the desire to beautify their surroundings. It was only a question of how. So when the club women resolved themselves into a committee on ways and means and devised practicable methods whereby streets, alleys, back yards and lawns could be made artistically and regularly beautiful the people have responded.

There are in Missouri 126 women's clubs affiliated with the National federation, with a membership of 4,000. In addition to these are many clubs of a local or state wide character. All of these clubs, whether they are federated or not, whether their purpose is literary, musical or general improvement, are interested in the town beautiful movement. Many clubs are organized for that purpose alone.

Prominent among the clubs that have taken an active interest in the civic beautification movement is one at Trenton, a town of 7,000 population, in the northern part of the state, which has recently petitioned the mayor to issue a proclamation setting aside an official cleaning up day. The mayor was to ask the citizens to devote a few hours to the cleaning of their yards, alleys and streets and to destroying or having removed all the rubbish and paper that might thus be uncovered.

In addition to this appeal to town pride the Trenton ladies have a series of cash prizes which they offer to children in the wards of the town for the best gardens and most beautiful yards and lawns. Seeds are furnished to all children who enter these contests and a system employed which arouses their pride and competitive spirit.

A decided impulse was given the town beautiful movement a year ago in a number of Missouri towns, and, although it originated from what might be termed a selfish motive, the result has been beneficial to the towns involved. Two new normal school districts had been established. One was in the southeastern part of the state, the other in the northwestern part. There already were three such districts, with schools established.

The new schools were to be built at the town offering two principal inducements—first, a substantial cash and land bonus; second, the most healthful and attractive location and conditions. At once a struggle began between half a dozen or more towns in each of the proposed districts. The wealthier ones had the advantage so far as the bonus was concerned, but the competition for beauty and cleanliness admitted an open field with few favors. A legislative committee was to visit all competing towns and decide which one merited the new school. Weeks before the visit of the committee the towns began to "put on airs." Rumors of cleaning up movements spread from one town to another, and the spirit of all was increased. When the week for the visit of the committee came cleanliness had become not next to godliness, but next to a mania.

In the southeast Springfield, Webb City, Lebanon, Arcadia and a number of smaller towns were in the contest. In the northwest Maryville, Stanberry, Savannah, Tarkio, Rock Port and other places waged the war against dirt. Further than that, the towns which already had normal schools, knowing that the locating committee might visit them for inspiration concerning the selection of the two sites for the new schools, began to clean up, and even Columbia, the State university town, put on its dust cap and grabbed a broom. Many of these towns, in addition to mowing their lawns carefully, trimming their trees and cleaning up their alleys and back yards, actually swept the streets with brooms.

Only one of these cleanly and virtuous towns in each district could be rewarded by being selected. However, like the boy in the schoolbook who stopped swearing one day for the love of a dollar and the rest of his life for a higher purpose, the start was beneficial. Many of the towns which became so industrious then saw the good effect of the campaign against dirt and have kept it up systematically. St. Louis, St. Joseph and Kansas City have done something toward civic beauty, but the greatest credit belongs to the smaller towns. It is more possible with them, for they have not, as a rule, the disfiguring and generally discouraging conditions that surround the city campaigns to contend with.

In Macon a women's club has practical charge of the cleaning and sanitary arrangements of the town. It collects money for street cleaning and similar purposes regularly and sees that the work is done, and in addition has many effective plans for beautification and general improvement. Arbor day is generally observed by schools throughout the state, although the observance is due almost wholly to the various individual teachers rather than being a part of the educational propaganda of the teachers of the state as a whole.

Note.—Where the postoffice differs from the name of school, it follows name of teacher.

#### WORK WEAKENS THE KIDNEYS.

##### Doan's Kidney Pills Have Done Great Service for People Who Work in Oregon City.

Most Oregon City people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Oregon City cures prove it.

Theodore Huertli, carpenter, living on Park Place, about two miles from Oregon City, Ore., says: "I found Doan's Kidney Pills do just what is claimed for them. For a long time I suffered a good deal with lameness and aching over the kidneys and irregularity of the action of the kidneys. The trouble was not severe enough to lay me up but was very annoying and made it difficult for me to stoop or lift anything without my back paining me. I was induced to try Doan's Kidney Pills from the recommendation of a friend, and went to Huntley Bros. drug store for them. Their use absolutely removed the trouble with the kidneys, strengthened my back and in every way proved your remedy to be worthy of all confidence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Alexander Charing, of 89 Seventeenth street, Portland, was married last week to Kathleen Kieley. The groom is well known here, where he was formerly employed in the store of Barmeister & Andreason.
