KNOWING WATCH VALUES

KNOWING that a dollar's worth is not sold for fifty cents.

KNOWING that it costs more to keep the doors of a store in a large city open than it does ours.

KNOWING that our expenses are lower at EVERY point than theirs we maintain that it is reasonable to suppose that our Prices will be found as low as theirs. And as we buy from the same people as they do why shouldn't our goods be just as new and attractive as theirs?

KEEP this in mind when you are going to purchase a watch. We stand behind a stock of watches that invites comparisons from everybody—a stock that looks right and IS RIGHT.

BUT WE WOULD rather show you than tell you, therefore we will gladly welcome you any day.
