DR. FLUNO'S ABLE LECTURE

Talks on Christian Science vs. Finite Sense.

MANY PEOPLE HEAR HIM

Distinguished Man Delivers Interesting Address to Large Audience Last Night.

Willamette Hall was well filled last evening with a cultured and eager audience. Probably three hundred people listened for an hour and forty minutes to an address by Francis J. Fluno, M. D. C. S. D., on "Christian Science vs. Finite Sense."

DR. FLUNO'S LECTURE.

By way of introduction let me say it is not our province, desire or purpose to teach Christian Science in this lecture. Christian Science is the science of being and necessarily includes all there is of being, and is an education in itself; an education that is infinite, unlimited and inexhaustible; and not only takes months, but years and ages and finally, eternally itself to know, understand and comprehend it.

It takes time even to begin to comprehend, or to begin the study as it were, of such a subject, for since Christian Science is the science of being, it necessarily is the reverse of the sense testimony, i. e. it is the converse of the evidence of the senses, and is therefore just the opposite of most people's line of thought, or way of thinking; and must of necessity take time to turn from thinking one way to thinking just the opposite way.

We may give you some little idea of what it is and what it teaches; make some statements as to what it is and what it is not, and tell you in what way and by what means you may obtain it for yourself.

If you were going to take up the study of mathematics you would not want a book as a text book that did not teach mathematics, but taught something like mathematics; if you would want the science of numbers itself, if you could get it, and nothing short of it.

Or, if you wished to study music, you would not apply to a teacher who taught by ear, but one who would teach from principle, and hence teach it correctly.

THE CHRISTIAN SCIENCE TEXT-BOOK.

Likewise, to begin the study of Christian Science you will need its text book, "Science and Health, with Key to the Scriptures," by Mary Baker G. Eddy, and also other works of this author, and of the Christian Science Publishing Society in Boston, Mass.

These books and publications, together with the Bible, are the only ones that Christian Scientists recognize as authority on the subject, or as Christian Science at all.

The text-book of Christian Science, "Science and Health, with Key to the Scriptures," is a library in itself. It edu-

icates, enlightens and refines all who come in contact with it.

AUTHOR OF TEXT-BOOK.

"The author, of rare intellectual ability, deeply religious nature, high educational attainment, and a life experience which tended toward wearing her from earthly hopes and ambitions, was being fitted for a master-work a priceless contribution to the age in which she lived."

"Mrs. Eddy, of celebrated English and Scottish descent, is a native of New Hampshire, and in the vicinity of Concord her family for many generations has lived honored and respected by all."

"Mrs. Eddy is now living in Concord, in her modest quiet home, loved and esteemed by the citizens, her kinsfolks and friends."

"And I rejoice and am grateful to say that it has been my privilege to receive personal instruction from her, and confirmation, as it were, of the teachings of our text-book, 'Science and Health.'"

"I shall talk to you this evening upon the subject of finite sense viewed in the light of Christian Science, or CHRISTIAN SCIENCE VERSUS FINITE SENSE."

"Finite sense has all things material and nothing spiritual. Christian Science has all things spiritual and nothing material."

"Christian Science is just the reverse of finite sense. It is the wisdom of the leading statements in Christian Science seem so absurd and far fetched to the physicalist, but are under the divine law, and the more closely you walk in the spirit, the further are you removed from the material."

"Hence, living according to Christian Science, we are becoming more and more free from the bondage of the senses; more and more liberated from the things of sense, that tend to keep us forever in bondage."

"Finite sense judges all things from the standpoint of appearances, while Christian Science judges all things from the standpoint of Principles, God, Jesus said, 'Judge not according to appearances, but judge righteous judgment.'"

"And Isaiah, in his prophecy of the coming Prince of Peace, said, 'And the spirit of the Lord shall rest upon him, the spirit of wisdom and of might, the spirit of counsel and of might, the spirit of knowledge and of the fear of the Lord, and shall make him of quick understanding in the fear of the Lord, and he shall not judge after the sight of his eyes, neither approve after the hearing of his ears, but with righteousness shall he judge the poor, and reprove with equity for the meek of the earth; and he shall smite the earth with the rod of his mouth, and with the breath of his lips shall he slay the wicked; and righteousness shall be the girdle of his loins, and faithfulness the girdle of his reins.'"

"No judgment arising from or based upon the sense testimony can be reliable or trustworthy, and hence cannot be a righteous judgment. Appearances have no principle, no standard, no basis in fact, and hence ought not to be taken in evidence."

"And since according to Jesus' teaching, the sense testimony, the testimony of appearances, is not right, because not righteous, then surely it is not right for any one, and especially because of Christ, to take them in evidence."

JESUS' JUDGMENT NOT ACCORDING TO APPEARANCES.

"Jesus did not judge according to appearances when he met the man who had been blind from his birth; his disciples were inclined to judge from that standpoint, for they asked (John 9:2-3),

BIG BRIDGE IS CLOSED

County Court Will Not Let Public Cross Structure.

CONDITION WAS UNSAFE

People From West Side of Willamette Cannot Come With Wagons Until Repairs Are Made.

The County Court Wednesday closed the big suspension bridge across the Willamette River, and the structure will remain closed until all repairs are completed, which will probably take a week or ten days. The mills and factories of the west side have constructed a pontoon bridge near the Falls and the operatives will cross to and from work over this temporary bridge, but the farmers of the west side section will be debarred from entering Oregon City, as no provision has been made for the passage of horses and vehicles of any description. There will be no ferry installed for the accommodation of these people, and trade between the local merchants and the farmers of Willamette, West Oregon City, Bolton, Oswego, Stafford, Wilsonville and other towns will be terminated for a time.

Two bridge experts of the Southern Pacific Company made a critical examination of the structure and advised the County officials to close the bridge without delay. They stated that the bridge might stand and again it might fall at any time and their advice be on the safe side was speedily taken. The bridge across the Willamette was built about 20 years ago and this is the first time it has been closed to the public.

Every part of the bridge will receive a thorough examination. The cables will be unearthed at both the east and west ends, and the casing will be stripped off of all the four piers. The cables have sunk down where the tops of the piers have been crushed in and as a result the rods are loose.

MAPLE LANE GRANGE.

Patrons Favor Establishment of Public Wharf Here.

Maple Lane Grange held its regular meeting at the Maple Lane Grange hall Saturday. The initiatory ceremonies of the first and second degrees were conferred upon three candidates, and the work of the grange was inspected by Mrs. H. L. Wall, of the Evening Star Grange, No. 27.

The social committee reported and turned over to the building fund the proceeds of the recent entertainment,

amounting to \$26.19.

At the morning session the following resolution was unanimously adopted:

Whereas, There is a movement being promoted to build a public wharf in Oregon City, therefore, be it Resolved, That Maple Lane Grange No. 296 is heartily in accord with this movement, and we reaffirm our resolutions of July 1, 1905, as follows:

Resolved, That it is the wish of the grange that a public wharf be established at Oregon City, and further be it

Resolved, That we as farmers and Patrons of Husbandry will give this movement our moral support, and will also agree that should a wharf be established at Oregon City, we will give the enterprise our practical support.

At noon a dinner that demonstrated that the culinary art is by no means the least of Maple Lane's talents, the following lecture hour program was rendered: Song, "Drifting with the Tide;" grange; roll call and response to the question, "How Do You Like to Eat Apples?"; paper, "Francis E. Willard," Mary Shelly; reading, "The Little Blossom," A. Splinter; recitation, "Sweet Peace, the Gift of God's Love," Emma Hobbie; essay, "A Home," Yeckel; and "A Charming Ride on a Country Road," Shirley Swallow; solo, "Beautiful Gliding River," Mrs. S. A. Gillett; recitation, "Twas Nothing Heroic," J. T. Dickerson; recitation, "The Drummer Boy," R. Mautz; The Scrap Box was opened by A. J. Hobbie and A. Gillett and was followed by a recitation, "Two Little Kittens," Myrtle Swallow; recitation, "How Perseus Took Care of the Baby," Carrie Seelye; song, "The Plow, Spade and Hoe," the Grange; recitation, "How Brier Was Saved," O. A. Swallow; recitation, Mrs. Mattie Beard; original poem, "The San Francisco," by William Gardner; address, "Ignorance," Mrs. Louise Beard.

LOOKING FOR PASOLD.

Party Organized to Search for Missing Mollala Man.

The people of Mollala Tuesday organized a hunting party to search for Albert Pasold, who has been missing since before Thanksgiving Day, 1906. Pasold went into the mountains last fall, and he has not been seen or heard from since he left. He took no gun with him, and he has no way in which to secure food and his relatives, and especially his mother are frantic with anxiety for his safety. His brother, Frank Pasold, made a trip a week ago to the cabin at High Camp, where food was left for the missing man, but found the food untouched and is greatly concerned.

Pasold has gone away a number of times and taken his own good time about returning, but heretofore he has always appeared, in good health and spirits, but this time he has been away so long under such conditions that there is every reason to believe that he has starved to death in the mountains, and his body is now being sought by the Clackamas County Horticultrual Society at its last meeting.

Captain Shaw formerly lived at Hood River and was greatly impressed with the vast amount of advertising done by the growers of that section to display their fruit at annual fairs, and he believes that Clackamas County would profit by the same plan. The berries grown in this county are mostly of the Magoon variety and are more luscious and edible than the Clark seedling, which is grown at Hood River, though not as good for canning.

Captain Shaw requests all growers who desire to make an exhibit to send their names and addresses to him at Oregon City and in a week or two he will call a meeting to discuss details for the proposed festival.

Mountain View.

Grandapa Kays died at the hospital in Salem last week.

Mr. and Mrs. McCord have moved to White Salmon for the summer.

Mr. Parish has given his house and fence a new coat of paint.

Mr. Jefferson hauled a load of sawmill belongings out to Clarks for Curcio, Curran & Co. last week.

Mrs. Matchett Brown is spending this week at Barton.

George Ogilvie was doing business in this place Monday and visited Mr. Harless at the Portland hospital.

Mr. Ott and family have moved into the Hewlett Bradley house.

Mr. Skinner and family have moved out to their farm on the Mollala road.

Lyman Mack is working for the blacksmith this week.

Miss Ethel Cheney arrived in this city Wednesday from McMinnville, and will remain in this city for a few days, where she was summoned by the illness of her mother.

CARD PLAYING IS DENOUNCED

Rev. E. C. Oakley Condemns Prize Giving.

PROTESTS IN A SERMON

Insists That Gaming For a Stake Does Not Differ From Ordinary Gambling.

Rev. Clarence E. Oakley, pastor of the First Congregational Church, Sunday morning in his sermon denounced the practice of giving prizes for card playing at society functions and it is said that several of the members of his church are considerably wrought up over the statements made by the pastor. Mr. Oakley, who came here several months ago from Eugene to succeed Rev. E. S. Bollinger, said

Congregational Minister, Who Denounced Card Playing For Prizes.

There was too much card playing in Oregon City and he made a vigorous protest against the excessive indulgence in games of that description. There are a number of societies that devote the major portion of their meetings to card playing and the clergyman stated that too much of that sort of thing was apt to make natures shallow.

Mr. Oakley stated that he supposed that card playing, and in particular prize giving, was done through ignorance of social laws, and he did not put the women and men of this city on the level of the ordinary gamblers who were well aware that the practice was corrupt, but he insisted that gaming for a stake does not differ in nature from any other form of gambling.

FRUIT TREES CONDEMNED.

County Inspector Leads the Way For Better Orchards.

County Fruit Inspector A. J. Lewis has condemned a lot of fruit trees that were shipped to Charles Hill at Mollala, from a German nursery at Nebraska. He found the trees were covered with root galls and hairy rot and burned the entire shipment.

The inspector finds that the horticultural law is faulty in at least one respect, where it provides for a notice of 90 to 30 days to be given to growers who neglect to spray their trees. He says that after the time has elapsed after the notice is given it is often too late to spray to be of benefit to the orchards. Mr. Lewis sprayed one orchard last Saturday, but believes it was too late to do any good.

The orchards that have been neglected are being attended to and in the Ladd tract at Mount Pleasant, the owner has a stump puller at work and is destroying about 1200 trees that are of no value, as they are diseased beyond a point where treatment will benefit them. Clark Fuge is at work cutting down the apple trees close to the ground and burning them, on lots 3 and 4, in block 155, on the corner of Ninth and Jackson streets. These lots are the property of Mrs. Lena Rieger, who is the wife of City Superintendent of Schools, Frank Rieger of Portland. The cost of cutting down and burning the trees will be recorded as a lien against the property unless paid by the owner.

Investments Are Profitable.

A. W. Cheney has purchased six flats on Second and Clay streets in Portland from Mrs. Helen Stratton and R. A. Proudfoot for \$14,000. Mr. Cheney has been remarkably successful in real estate speculation in both this city and Portland. Four years ago he bought for \$4000 an apartment house on Sherman street and immediately leased it for four years. Last week he sold the property for \$8000, just doubling his money.

Mrs. Sarah Linn.

Sarah, wife of W. T. Linn, died in Portland, April 27th, at the home of her daughter, Mrs. G. W. Bever at 834 Clinton street, after a lingering illness. She was going to Portland Mrs. Linn was formerly a resident of Eagle Creek, where she lived many years on one of the finest farms in the county. She was loved by all who knew her, and always had a helping hand for those in trouble, and was familiarly called "Aunt Sally."

She was married in Brown County, Ill. Mrs. Linn was 75 years of age, and came across the plains with her husband in 1865, and has resided in Oregon ever since. She leaves to mourn her loss a husband and three

TOLL RATES ARE HIGHER

Heavy Increase on Road to Mt. Hood.

GATE AT SALMON RIVER

Two Tolls to Be Collected From People Who Pass Old Gate to the Mountain.

The county court has increased the rates of toll over the Mount Hood and Barlow Road and has made an order allowing the road company to establish a new gate at the Salmon River bridge, as well as the present gate. The toll rate from the western terminus of Salmon river bridge to the toll gate and return has been fixed as follows:

- Each automobile..... \$1.80
- Each 4-wheel vehicle drawn by one span or yoke of horses, mules or oxen..... .80
- Each additional span or yoke..... .20
- Each 2 or 4 wheel vehicle drawn by one horse or mule..... .50
- Each saddle horse with rider..... .25
- Each horse or mule with pack..... .20
- Each horse or mule loose..... .05
- Each head of cattle loose..... .05
- Each head of sheep, goats or hogs..... .03

The rate of toll over and across the road for either the old Barlow route, terminating at Gate Creek, or the Oak Grove route, terminating at Oak Grove is fixed as follows:

- Each automobile..... \$2.50
- Each 4-wheel vehicle drawn by one span or yoke of horses, mules or oxen..... 2.50
- Each additional span or yoke..... .50
- Each 2 or 4 wheel vehicle drawn by one horse or mule..... 1.50
- Each saddle horse with rider..... .75
- Each horse or mule with pack..... .40
- Each horse or mule loose..... .20
- Each head of cattle loose..... .10
- Each head of sheep, goats or hogs..... .03

The petition for fixing the rate of toll recites that the distance from the western terminus of the road to Mt. Hood and the cost of construction represents 2/3 of cost of construction of the thoroughfare and is about one-half of the distance in length of the whole road and is more expensive to operate and maintain. The rate of toll from the western terminus to points in the vicinity of Mt. Hood shall be one full toll for the round trip. The company says it is a hardship to maintain the bridge over Salmon river and its road from Salmon river to the toll gate for the accommodation of the tourists and others without compensation. The distance from the western terminus to the toll road is 10 miles.

President P. L. Campbell of the University of Oregon, has been invited to deliver the address to the class, who is class orator is Alvah Ray Groat, who is class president. Elva Emily Watts is the valedictorian and Mary Arvesta Scott is the salutatorian. Others who will take part in the program are Harry David Frost, Winnie Florence Jackson, Harry August Scholt, Allen Marie Gottling, Ethyl Park and Olga McClure.

The remaining members of the class are Chester Carothers, Hazel Lucy Glutner, Millard Irving Gillett, William Mitchell Strohmeier, Genevieve Leighton Capen, Rosa Christina Moshneke, Harold Vernon Waldron, Myrtle Gladious Cross, John Paterson Telford, Gilbert Eugene Long, Leila Eldora Young, Elizabeth Lewis and William Jackson.

Miss Ethel Green leaves Monday for the Jamestown Exposition with The Telegram party.

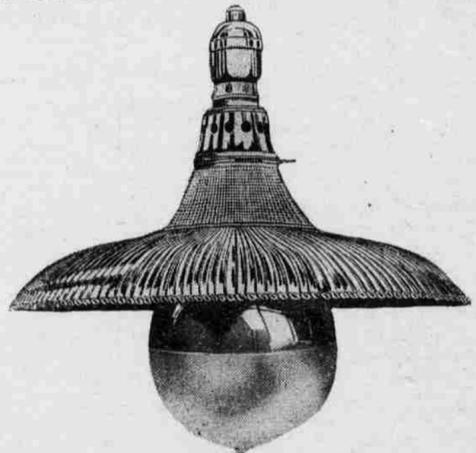

HIGH SCHOOL COMMENCEMENT.

Graduates of Barclay High School Arranging for Exercises.

Graduate students of the tenth grade of the Barclay High School are arranging for the annual commencement exercises that will take place in Shively's opera-house Tuesday evening June 11. There are 25 members in this year's class, and no less than 20 of them are anxious to proceed farther along educational lines and will attend a union high school if such an institution is organized.

Gives More Light Gem High Efficiency High Candle Power Electric Lamp

THIS NEW LINE OF HIGH CANDLE-POWER LAMPS SIGNALIZES AN IMPORTANT DEVELOPMENT IN THE USE OF ELECTRIC LIGHT, AND MARKS A NOTABLE ADVANCE IN THE BETTERMENT OF ILLUMINATION. THE ACTUAL GAIN IS 20 PER CENT BETTER EFFICIENCY THAN IS AT PRESENT OBTAINED FROM THE HIGH-EST EFFICIENCY INCANDESCENT LAMPS.

High Efficiency Lamp with Distributing Holophone Reflector

APPRECIATING THE GREAT GAIN IN LIGHTING SECURED BY THE USE OF PROPER REFLECTORS, THERE HAS BEEN DESIGNED FOR USE WITH THE NEW LAMPS A SPECIAL LINE OF HOLOPHONE BAGODA SHADES, WHICH, WHEN USED WITH THE NEW LAMPS FORM A BRILLIANT AND HIGHLY EFFECTIVE LIGHTING COMBINATION.

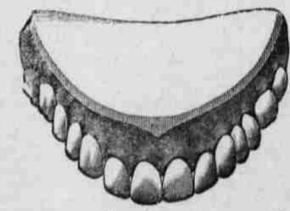

TWO STYLES OF REFLECTORS ARE PROVIDED, THE DISTRIBUTING OR "D" FORM WHICH IS SHOWN ABOVE, AND WHICH IS RECOMMENDED WHERE WIDE AREAS ARE TO BE ILLUMINATED, AND THE CONCENTRATING OR "C" FORM OF REFLECTOR WHICH IS ADMIRABLY ADAPTED FOR USE IN SHOW-WINDOW LIGHTING OR WHEREVER A CONCENTRATION OF LIGHT IS DESIRABLE.

THE GEM LAMP WITH ITS HOLOPHONE GLASS REFLECTOR FORMS A BRILLIANT LIGHTING COMBINATION AND MERITS THE ATTENTION OF STORE KEEPERS AND ALL THOSE INTERESTED IN THE IMPROVEMENT OF LIGHTING FACILITIES.

ON EXHIBITION AT THE COMPANY'S OFFICE, 609 MAIN STREET.

Portland Railway Light & Power Co. C. G. MILLER, Contract Manager for Oregon City CALL TELEPHONE MAIN 1081 FOR INFORMATION.

The Reason

We enjoy the largest Dental practice in Oregon City is because we try to excel in our work. Our work lasts, we never do poor work. The people know it. Our constant effort is to give not "just as good" but the best work and that, for as little money as possible.

Our recent trip east to the great center of dental education, was for the purpose of giving you the latest and best up-to-date dentistry. Our 17 years of successful practice in Oregon City is the best guarantee any dentist can give you. A guarantee is good only as long as you can find the one who gives it, and then not always. We are careful not to hurt you, as we have feelings ourselves. We want your work and want you to send us your friends. Have an eastern expert graduate assistant dentist. We put our name back of our practice. Our prices are the lowest in the city for good work.
