WHO IS WHO SAYS MYERS

Will Idaho Miners Get a Fair Trial?

ROPES ON THEIR NECKS

Incidentally Refers to Combination to Break up New Co-operative Store.

Oregon City, May 22.—(Editor of The Courier.)—Will Myers, Haywood and Pettibone get a fair trial? What is the difference between a judicial murder and an unlawful murder? Let's see.

In the first place we have the Citizens' Alliance, organized to down all unions. The unions demanded the 8-hour law. The matter was referred to the people and carried by 46,000 majority in the state of Colorado. The legislature refused to ratify the will of the people; the unions struck; martial law was declared; legally elected officers were taken out; guns put in their faces; ropes around their necks and they were forced to resign; the union men gave up all their arms to the authorities through a ruse that it was all to keep down trouble.

Then what did these desirable citizens do after they had the miners disarmed and at their mercy? Deport them.

Buckley Wells and others said "To hell with the constitution; down the law; give them post mortems."

Looked the story of one man who gave the union men credit and deported him, (just what they would do with the co-operative store in Oregon City if they had martial law.) Went to a mine that the union men had staked out and were peacefully at work and fired into them, drove them out of their own property and deported them. He drove the men from another mine, where there was no strike, the union being satisfied with the owners' treatment. Blew up their own mine, dynamited the depot and tried to lay the blame at the door of the union. The morning after the depot was blown up the union offered a reward, put blood hounds on the trail and the tracked to a cabin where one of the employees of the Citizens' Alliance stopped that night.

Were there any arrests? Who? Could the union men have the Pinkerton thugs arrested who did the job? No. Why? Because the law had been damned, the honest officers had been forced to resign, and anarchy reigned.

Who were the anarchists? Who are the anarchists in Oregon City? The wage earners that started the Co-operative store or the combination that is trying to run them out. The above charge has been made, (except Oregon City), and names given by G. H. Shout and he dares the parties named to arrest him for libel.

Can the men get a fair trial? No. We know. The right to a lawful trial asked by the defense has been denied. About one year ago a friend of mine said to me "The right to habeas corpus has not been denied."

The other day I met him and I said: "Say, Jim, what about the rights now?"

"Well," he said, "I think it is all right in this particular case," as much as to say my bull gored my ox, but when your bull gores my ox the decision will be wrong. The prosecuting attorney in Idaho swore to a lie and acknowledged it. He knew Myers and Haywood were not in Idaho at the time of the murder, but some one had to get them into Idaho.

When it comes to a jury, men are asked their politics and now let me ask a question.

If a socialist or union man would acquit, would a republican convict? We find also all jurors yet questioned have been Republicans, in the face of the fact that Ada County gave 500 majority against Gooding.

Now, I don't claim a Socialist is any more honest than a Republican, neither are the Republicans more honest than Socialists. Who are the men back of the prosecution? The mine owners, backed by James McPartland, Goodings and Borah.

Who adjourned the jury at Boise? Why? Because it had Senator Borah indicted ad Gooding's name with others was coming up.

Who is James McPartland? A Pinkerton. What is his business? Put spies into all business houses in opposition to the mine owners. What is his incentive? Money. Who pays him? The mine owners.

Does money influence courts, buy jurors, evidence, legislatures and the press? If so, who has the money? Now, in conclusion, who would take the evidence of McPartland and Orchard seriously? Would you (if you had been Orchard) left evidence of bombs and dynamite in your room after the murder, if you had not wanted to have been caught?

May the Lord see that the truth will prevail and the murderer brought to justice.

Again, do you think it right that no one but McPartland shall see Orchard?

Not even Linn Jones of Clackamas County, a representative, would not be allowed to see him even if he did not want to speak to him but just to look at the brute.

Shad Operations to Commence.

The United States Bureau of Fisheries is preparing to resume shad operations in the Willamette River between Oregon City and the mouth of Clackamas and the taking of eggs will be commenced early in June, under the direction of Superintendent O. The battery will be established at the same place this year.

BACK GIVES OUT.

Plenty of Oregon City Readers Have This Experience.

You tax the kidneys—overwork them—They can't keep up the continual strain. The back gives out—it aches and pains; Urinary troubles set in. Don't wait longer—take Doan's Kidney Pills.

Mrs. A. Canavan, of 733 Northrup St., Portland, Oregon, says: "For two or three years, owing to kidney complaint and backache, I was some days unable to attend to my household duties at all. What I did do was under great strain and misery. When, owing to a weak, lame and aching back, you are unable to sit, stand or lie when dizzy spells are common and you are annoyed with symptoms of kidney complaint, I never fail to get in a good word for Doan's Kidney Pills."

ROAD HOUSE ON CLACKAMAS.

Pleasure Resort Will Be Thrown Open To the Public in a Few Weeks.

August Erickson, who owns a fine property on the Clackamas road several miles from this City, has nearly completed the furnishings of his new road house which will be thrown open to the public the latter part of June. Mr. Erickson was in the city this week and stated that a grand picnic would be given to mark the opening day. The situation has considerable advantages as a health resort and will be known as Clackamas Tavern. Every thing will be done to make the resort pleasant and attractive and a dancing pavilion is now being constructed. Mr. Erickson will place automobiles on the road to connect with the electric cars from Portland and next winter he expects to build a large and commodious hotel on the place. The proprietor says he is looking for the best class of custom only, and that the resort will be patterned after The Oaks.
