

NEWS OF THE COUNTY

Estacada.

Sunday, June 2nd was a great day for the church people of Estacada. The beautiful edifice, located in an ideal spot, where it commands a fine view was the admiration of all who came to see it, and the Methodist Episcopal people feel very grateful toward all who contributed so liberally toward its construction, for without their aid it would have been impossible for the membership to have erected it. The services through the day were interesting and well attended. The Rev. Clarence True Wilson of Portland preached the dedicatory sermon and was ably assisted during the other services by presiding elder B. F. Rowland, John F. Carroll, W. J. Clemmens, B. Lee Paget, F. S. Alkin and T. S. Davids and others of Portland.

One thousand dollars was secured for the payment of the balance due the church and the erection of a parsonage, which will be undertaken at once. This property adds very much to the appearance of our city and is worth about seven thousand dollars.

The city election is over and one of the most fiercely contested fights usually seen in small cities. A part of the old council was reelected. Dr. Haviland the newly elected mayor over Mayor Reed by six votes. Estacada is just now in the flush of excitement over the prospect of having located in our midst a large manufacturing industry.

Estacada is the making of a prosperous and business city. Good opportunities for settlers, within 80 minutes ride on the O.W. P. Co.'s electric cars from Portland. The agents resident at each place will be found reliable, intelligent and friendly and will afford the settler every assistance in securing a desirable location and establishing himself in his new home.

properate ceremonies. Rev. Patton preaches at Viola, Highland, Redland and Clarkes, and is about the busiest preacher in Clackamas County. He is very enthusiastic in his work and the new church at Highland is due largely to his efforts, aided by the members of the church. Many well known farmers have contributed \$40 each, and the building is being erected by Contractor Brown, of Maple Lane, who built the parsonage of the First Baptist Church of this city. Mr. Kandle is a trustee of the Highland church. The windows were ordered in this city yesterday. The pastor and members have resolved to dedicate the edifice free from debt, and the total cost with the exception of about \$300, is now assured.

Russellville. This part of the county shows up with other parts of the county. Some wheat is heading and looks nice. Oats are also good. Oats and vetch are a good crop. Gardens are very fine. Road work is in full blast here now. There seems to be a move to have a new road down the mountain to Wilhoit, making an easy grade to that place. Some are wanting the road to Lehman's mill opened on the survey. Some of said road has been opened for some time, but some still remains unopened.

Well, it is a little strange, as it is a nice neighborhood and all surrounding. Keep that in your items and it will probably be noticed soon. Nice weather still prevails and all is encouraging.

Mr. Lehman seems to be selling lumber now as teams are passing frequently.

A Thousand Dollar's Worth of Good. "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurmes, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me \$1000 worth of good." It was decided to have a children's day picnic on the Clackamas at W. P. Kitchem's place on June 29. If the weather is unpleasant the picnic will be at the ball. It is expected that all members will begin preparations for the fair.

We have learned since the meeting that Harding Grange received the first prize of \$20 for this district, at the state grange at Hood River. This is well for the officers.

Mr. and Mrs. F. P. Wilson were present, having returned from Wasco County.

Remarkable Rescue. That truth is stranger than fiction, has once more been demonstrated in the little town of Paduca, Tenn., the residence of C. V. Pepper. He writes: "I was in bed entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds, \$0.50, and \$1.00, at Howell & Jones, drug store. Trial bottle free.

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

The funeral was held Thursday morning from the late residence of the deceased, Rev. Gilman Parker, officiating. The interment was in Clackamas cemetery.

Decorations at Clackamas. The people of Clackamas observed Decoration Day in an appropriate manner, and the members of Clackamas Grange, Methodist and Congregational Churches and Sunday schools met in the grange hall in the morning and listened to a musical program. At noon the ladies of the grange served a dinner that was fully equal to the dinners always served by the grange, and then Captain J. P. Shaw made a short address. The veterans of the Grand Army of the Republic and ladies who assisted them and the citizens of Clackamas marched to the cemetery and the graves of the dead were strewn with flowers. Rev. Moore, pastor of the Methodist Episcopal church, led the people in prayer and an impressive oration was delivered by Attorney Walter A. Dimick of this city, whose remarks were replete with words of patriotism.

WOMEN PAY MORE. Why Insurance Companies Discriminate Against the Gentle Sex. If one is to believe the medical examiners the reason a woman pays more for the privilege of life insurance is that she is much more commonly a victim of indigestion and stomach troubles and the fatal ailments that spring from these causes. It is not the acute attacks of disease that influence the insurance examiners alone, but the constant feelings of weakness, headache, indigestion and stomach trouble. These things, physicians say, kill more people than many of the serious diseases.

For curative power in all stomach troubles nothing else is as safe yet effective, nothing else can be so thoroughly relied upon to relieve all troubles of indigestion, as Mi-on-a. It is unlike any remedy heretofore known; it is not a mere digestive tablet; it strengthens and restores to natural action the stomach and bowels and makes a complete cure in even the worst form of stomach troubles.

Maroons Beat Woolen Mills. On Willamette Falls field Thursday the Oregon City Woolen mill team went down to defeat in a baseball game before the Bunker Hill Maroons of Portland, with a score of 6 to 1. The pitching of the twirler for the visitors was a feature of the game, as was also the batting for the woolen mill team, was the bright, particular star for Oregon City, hitting out for a three bagger, and bringing in the only run made on a sacrifice hit by the next man up. About 1000 people saw the game, that was umpired by Foumal. Three of the

CHAMPIONS in the Meadow and Grain Fields THE CHAMPION MOWER The Celebrated Draw Cut Machine Not mere Champion in name, but Champion in fact. The draw bar draws the bar—no push. It increases the tendency of the machine to stick to the ground, giving more traction and more cutting power. You can prove it in this way. Drive the bar of a Champion Draw Cut into a post or tree—it will pull the wheels into the ground. Give a push cut mower the same test, it will have a tendency to lift the wheels from the ground. When the wheels are off the ground they can't leave the knife, hence everything that tends to lift the wheels from the ground, tends to decrease the cutting power of the machine and makes it more liable to choke.
