THE SOCIETY OF EQUITY.

An Organization Which Seeks to Control Prices of Farm Produce. With considerable flourish of trum-

organization, has announced its purpose to secure that great desideratum of western farmers, "dollar wheat." It has established headquarters in Chicago, from which point it will direct operations. It proposes not only to raise the price of wheat, but to eliminate the middleman's profits. Remarking editorially on this proposition, the Outlook of New York says that ing to undertake co-operative effort dition to their building. on a large scale has been the inevitaas to the number of 100,000 have seceded from the central organization and will manage their own affairs. Lectures by itinerant organizers and conventions for the display of oratory will not hold a nation wide organization together, much less one composeà of farmers, and this new union must have behind it a direct, simple plan for nities if it is to win permanently. The farmer almost alone of the tollers of the world has kept his independent way. He has no walking delegate, no union scale, no system of licensed apprenticeship. Neither has he indulged in high finance nor in the formation of powerful trusts. Yet upon his labor is based much of the prosperity that makes possible the trust magnate's de-

velopment It is possible that the new union has 700,000 members, but unless they are held with unyielding force and obey the directorate as one man it will have little effect in realizing the dream of "dollar wheat," which seems to be the western farmer's ideal of material bilss. If the farmers of the nation succeed in raising materially the price of their crops at initial points, the consumer must prepare to pay more for the finished product when delivered at his door unless the rise to the farmer uct to market. Some day this may be accomplished, but reports concerning the present undertaking do not indicate that It is to succeed permanently in changing the American farmer's condition, which, by the way, is not one of great suffering.

A GOOD IDEA.

The Annual Pass Card Used by a Vermont Grange.

Union grange, No. 351, of West Hart ford, Vt., issues a membership or pass card that is very complete and serves a good purpose. It is shown below:

ANNUAL

The advantages of this card are that It is a membership card showing member's grange connection, a pass card in case the bearer forgets the A. W., a traveling card good everywhere. In case the grange issuing the card should ever become dormant it would be accepted the same as a demit card by any grange to which the bearer should seek admission.

Report on Ritual. The report of the committee on de-

gree work at the recent session of the Massachusetts state grange was a most excellent one. We make a single extract: "In no order is there a better chance

to exemplify its teachings than in the Patrons of Husbandry. With a lesson for each degree and a ritual which leads us progressively, step by step, through the degree, we have a splendid chance to impress the candidates with the teachings of our Order. With four degrees, representing the four seasons, and the lessons changing to correspond to the changes in the seasons, we have a ritual that is based on nature and takes its teachings from the brown soll. There are no more beautiful or impressive sentiments expressed in the language of any ritual than in our ewn, and any officer that falls to do his or her duty by studying and learning their lectures does the Order a great injustice and cannot expect to make a favorable impression on the candidates."

Thomas A. Smith.

Thomas A. Smith died Tuesday orning at his home in West Oregon City, aged 36 years, and is survived by a wife and one child. He also leaves two brothers, Rev. Erastus A. Smith of Arleta, and Matthew Smith, of Bandon, Coos County. Deceased had been a sufferer with tuberculosis for several years. The was held Thursday morning from the late residence of the deceased, Rev. Gilman Parker, officiating. The interment was in Clackaams cemetery.
