he opposition, and there are others. The establishment of a large and ommodious public wharf has been when the Board of Trade appointed a committee to solicit funds or its construction. It was planned to organize a stock company and sell shares for \$10 each, and a whirlwind ampaign was inaugurated about \$500 being raised in one morning. Since then the proposition has languished and has received a blow from which It may not recover.

The street committee, however, re ported in favor of making the im-provement if a sufficient amount of money was guaranteed to build the wharf, and it was tacitly understood that as soon as the funds were in sight the improvement would be orlered. The estimated cost of the wharf is about \$1500 and funds were solicited with the proviso that the street improvement should be completed before the construction of the dock should commence.

WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

If one is to belive the medical examiners the reason a woman pays more for the privilege of life insurance is that she is much more commonly a victim of indigestion and stomach troubles and the fatal allments that spring from these causes. It is not the acute attacks of disease that influence the insurance examiners alone, but the constant feelings of weakness, headache, indigestion and tomach trouble. These things, physicians say, kill more people than many of the serious diseases.

For curative power in all stomach roubles nothing else is as safe yet ffective, nothing else can be so thoroughly relied upon to relieve all troubles of indigestion, as Mi-o-na. It is unlike any remedy heretofore known; it is not a mere digestive tablet; it strengthens and restores to natural action the stomach and bowels and makes a complete cure in even the worse form of stomach

Huntley Bros Company sell Mi-o-na 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it.

At Chautaugua.

Dr. Stanley L. Krebs, the eminent psychologist who opens the coming ssion of the Chautauqua at Gladstone Park July 9th and 10th, maintains that happiness, which all people are seeking, is purely mental. He says it lies so close that few of the seekers after it have really found it. They have overlooked it. They have looked too far away. It purely and simply a frame of mind,

according to Dr. Krebs. To prove this he tells the story of two men entering a restaurant. One of them orders frog's legs and raw ysters, deeming them the acme of gustatory delight, the heaven of Epicurean delectables, his only regret being that his throat is not longer giraffe like, to protract the savory ecstacy..... The other man thinking of the slime, filth and mud in which those same frog legs squirmed, and those raw oysters thrived, is nauseated at the very thought of sliding them down his esophagus and lodging the whole mass in the delicate fibres of supersensitive stomach. ee," then exclaims the doctor, "happiness in the one case and unhap-piness in the other is the result, though (mark this point well) the en vironment is identical in each. Frogs' legs and raw oysters constitute the common denominator of two fractions whose numerators are the two different states of mind, the value of PICNIC ON as the numerator varies."
