The cherry harvest has begun and a fair quantity of fine fruit is being gathered. There seems to be a fair shipping demand for Royal Annes, and if the present fair weather continues they will not be split. The Blue cherry is badly damaged by rain, so that only about 50 per cent of good fruit will be gathered. Lamberts are unharmed and will be a good yield.

Strawberries are almost gone, while the earliest raspberries are being picked, of which there is a large yield of nice fruit. Bushes of later raspberries and blackberries are loaded with well filled berries, while the tune of the mowing machine is heard

all about. This is Summer time in our glorious Willamette Valley.

Something new in a spraying apparatus is being used by Fruit Commissioner J. H. Reid, on his farm at Milwaukie. It is a dust sprayer.

The machine looks like an old fashioned coffee mill with a long ear trumpet attached, strapped to the shoulder like an old-fashioned corn planter.

The operator turns a wheel, and behold a stream of dust like a blower stacker, covers the tree. The spray is mixture of 50 parts—one part Paris Green, 5 parts sulphur, rest air slacked lime.

It is claimed that the dust will adhere to the cavity of the fruit blossom, or small-sized apple or pear, when a liquid would not. It is much cheaper than a liquid spray, and a better way of fighting codlin and other moths, but will not take the place of the winter spray of lime and sulphur when the tree is dormant.

It is also much more rapidly applied and not so disagreeable to handle.

The new method is being carefully tried and its merits or objectionable features will be discussed in the fruit papers that are now advocating "dust spray."

The following simple home-made mixture is said to relieve any form of Rheumatism or backache, also cleanse and strengthen the Kidneys and Bladder, overcoming all urinary disorders.

If taken before the stage of Bright's disease: Fluid extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well known authority states that these ingredients are mainly of vegetable extraction, and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder or Rheumatism, should give this prescription a trial, as no human can possibly follow its use, and it is said to do wonders for some people.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches the age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized.
