Sherwood.

Pernella Baker was born in Murray County, Tenn., May 3, 1821, was married to W. J. Tuckness April 5, 1846. Mrs. Tuckness, who died at the home of her daughter, Mrs. George Bailey, of Sherwood, September 11, was an Oregon pioneer, having crossed the plains with her husband and three small children, one a babe of six weeks, in an emigrant train of ox teams, starting in May and arriving in Oregon in November, 1853, residing on the donation land claim of Jno. Zuercher on the Willamette River in one of the then famous log cabins, 10x20, with mud and stick fireplace, the first winter. They then took up their land claim on the Parrott Mountains in Yamhill County, where they continuously resided for 50 years, when their home in which they had passed their fifth wedding day anniversary, was consumed by fire, the then old people barely escaping with their lives and a few of their many cherished keepsakes, among them some old pictures and a very little bedding and some clothing. They then moved to the home of their daughter, where the husband died in January, 1905. There was born to this union seven children, two sons, Thomas and William. Thomas dying at the age of five months and William at the age of nine years, and five daughters, one, Sarah, having died at the age of two years, and Mrs. Eliza E. McConnell, who died August 17, 1892, leaving nine children.

Grandmother was of very small stature, at her best weighing 105, but for many years 80 pounds and for the past few years between sixty and seventy was her usual weight. She was seldom ill, and at most times was able to attend to her own wants. She died of an attack of la grippe and old age, and was confined to her bed only five days. She passed away so easy they thought her simply sleeping a little quiet when death had claimed her. She was one sister, Mrs. Adams, now living at Wilsonville 70 years old, three brothers, W. P., Matt, and Melvin Baker, all of Sherwood, and three daughters, Mrs. Elizabeth Bailey, Mrs. Saphronia A. Jones, of Sherwood, and Mrs. Jane Bonney, of Hubbard; twenty-six grandchildren and twenty-three great-grandchildren, to mention their names, Grandfather and Grandmother Tuckness had always lived the good and honest lives of the farmer, and were devoted Christian people, having joined the United Brethren church in their young days and reared their family likewise. They had accumulated considerable wealth, which they left to their children and grandchildren, share alike. The funeral was held September 13, at the old Pleasant Hill Cemetery, where for years they had helped with loving hands to lay away friends, neighbors and relatives, beside that of her husband and son, conducted by Rev. Reed, Rev. Coleman and Rev. Eldridge, of Sherwood.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Huntley's Catarrh Cure. Send for circulars, free.

Mackburg.

Farmers are about all done threshing, with a little more than an average crop. Our friends from Liberal are complaining about a shortage of bushels. You should have had a machine to measure by the old half-bushel process and you would have more bushels.

Do you ever laugh? If you buy your farm machine and implements of us, you will smile with satisfaction, and will laugh at the man who pays more money for something else not so good.

Truthfully yours,

A CASE PLOW NEVER DISAPPOINTS BECAUSE IT MADE RIGHT

The illustration above shows the strength that distinguishes the J. I. Case Plows. It hardly seems necessary to say much about the qualities of these plows—they are so well known; but if you are not yet acquainted with them, come see our stock, or write us for information. If you do not live near one of our branches, see the dealer who is our agent in your vicinity. SOME WAY, see the J. I. Case line before you buy a plow. You will get a better implement and therefore save money.

The new school house on the division district is going up at a rapid pace.

Our Fruit Inspector's argument last week reminds us of a little article we noticed in an Eastern paper; it reads thus: "Some men are like pyramids—broad at the foundation but narrow at the top." You will find the condition of the average farmer of this locality just the reverse from his statement.

The hop industry this year seems to be a failure; some yards have remained entirely un-picked, while there is not a yard we know of but what has some hops left in it on account of the mould.

CLACKAMAS TAVERN OPEN.

Clackamas Tavern, the popular road house on the Clackamas River, has been thrown open to the public, and is commencing to enjoy a popularity that is amazing. Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble prevys upon the mind, discourages and lessens ambition; lessens vigor and cheerfulness soon disappears when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

S. L. Casto was out from Oak Grove sometime to visit his father.

No person has answered the question in Corvair three weeks ago. Why the United States government should not own the telegraph and thus prevent strikes and the demoralization of business?

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely, and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro, Green,ville, Ala. For sale by Huntley Bros., Oregon City and Molalla.

Molalla.

Died, September 8, Mrs. Luvena Sawtell, of dropsy. Deceased was born at North Curry, Somersetshire, England, April 6, 1830, and came with her parents to New York in 1838; moved from there to Illinois in 1841. She was married to John Sawtell on September 18, 1841. In 1853 they crossed the plains to Oregon with ox teams. She was the mother of 11 children, of whom four are living: Edith, John N., and Albert W. Sawtell, and Mrs. Ida Oswalt, all of Molalla. Her husband died nearly 30 years ago. Her remains were interred in the old Willhoit cemetery by Molalla Grange, No. 310, of which deceased was a charter member.

Highland.

Threshing is nearly finished. John Heft with his steam threshing outfit will wind up affairs this week, if the weather permits.

Henric was at James Parish's with his steam hay baler turning out the bales last week.

James Parish, formerly of Highland, but now of Elyville, is busy hauling hay from his farm to Oregon City.

Amos Harrington, the only hop-grower in Highland, finished hop-picking last week. The hops were of a good quality and picked by local pickers.

Jack Wallace and wife received an addition to the family, a son.

We notice with much regret many obnoxious weeds, such as bull thistles, burdock, etc., along the public highways. The road supervisors either can't see good or are woefully negligent of the duty which they owe to the people. The Canadian thistles also need attention in certain localities. These weeds are a nuisance, are unlawful, are propagated only by indifferent, careless people, and the public at large should be protected from their encroachment.

If the road supervisors would read the road law occasionally and act in accordance, these things would not exist.

Barton.

Jacob Cooper, of Dover, is at Dix's sawmill.

The Dix sawmill is about to begin saving slatwood. Fuel is high in Portland. A city of 225,000 people at one cord each is going to use lots of wood.

Mrs. Miller went to Portland Monday.

Joe Pettit, the hauler of Barton, is still hauling ties, but will quit in a few weeks to live in Oregon City.

Are you not terribly scared of the Chinks and Japs. The way they are arming and organizing themselves is awful. If they were all collected in the Oregonian building and Fruit Inspector Reid should turn his windy lips that way they could soon be blown back to the dark places where they belong.

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to be.—D. H. Beach, Midland City, Ala. Chamberlain's Salve is for sale by Huntley Bros., Oregon City and Molalla.

Well, they came, they saw, and got left—namely the representatives of the Pacific States Telephone Company. No doubt, they saw something of which our community need feel proud. When the speaker must call the young ladies (did I say ladies? Well, let it go at that) to order so he can hear himself speak, it shows there is something lacking in their makeup.

Homers Rowen is moving his family back to Dix.

Work has commenced on another three quarters of mile of rock road. Two miles more are needed right away to make teaming possible next winter.

Everything passed off quietly at the meeting of the telephone association last week. The improvement in the service is central is appreciated by the members. It was ordered that the trunk line between the central station and the Graham Church be placed in first-class condition. Other improvements will be made in the near future.

Here is a question which you frequently hear: "Say, who is J. H. Reid?" And if he could hear some of the answers, he would know more about Clackamas County than he now does, and if he will investigate a little he will find a good many thousand acres that were cleared by white men, and I will bet him any black cat against one of his Shetlands that more than 95 per cent of all the cleared land in Clackamas County was cleared by them. We know there were a few acres cleared by Chinese around Milwaukie. Does he think Milwaukee is the whole country? He says the high prices for butter and eggs, etc., are caused by scarcity and high price of labor. Does Mr. Reid think eggs, etc., would be more plentiful if we had a lot of Chinese here, like we had in the '80s and early '90s? Then you could buy a good day's work for from fifty cents to a dollar, now how many laboring men and farmers go back with regret at such times as Mr. Reid does? Will someone please ask Mr. Reid how many \$1800 cows he has. I think Mr. Reid would rather travel over the state inspecting orchards at \$4 per day than do an honest day's work for fifty cents or a dollar, as in the days gone by; and it seems he would so much like to see again—Nuff said.

It's up to New Eraites to incorporate so they may be able to dictate to the S. P. R. R. Co. and compel them to establish a ticket and freight office here or take their road out of the city. Curt Dustin left this week for Champagne.

Mr. and Mrs. Ed Huggins, of Portland, drove out from Portland Sunday and spent the day with friends here.

Harry Lewis and wife moved to Oregon City the first of the week.

A new doctor has located near Central Point. His office is adorned with diplomas from 17 medical colleges throughout the world.

The recent rains placed a huge smile on the faces of all the farmers that have potatoes to dig.

Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young workmen to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however, by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by Howell & Jones, druggists, 59c.
