ADVERTISING PAYS CUSTOMER AND DEALER.

Local business men are realizing more and more the necessity of an advertising fund. This fact is attested by the liberal use of "printer's ink" as compared with two or three years ago.

To be sure man must have his clothing and bread and he will buy these whether the merchant advertises or not but it is also true that no merchant ever conducted a successful business by selling only such articles as are an absolute necessity and it is also true that no merchant ever made a big success in business without employing a definite method of publicity.

The people have a right to be informed as to what the merchant has to sell. He can either spend his energy in giving out this information or the customer can spend his time and energy in making inquiry.

MAGAZINES A GREAT POWER.

The magazine plays an important part in shaping public opinion. Since the price of standard magazines has dropped from \$4 or \$5 to \$1 there are few homes that are not supplied with this favorite reading matter.

It may not be generally known that much that is published in the magazine of today is paid matter. This should be acquainted with this fact for it may save the reader from arriving at wrong conclusions.

There will be hard things said against Presidential aspirants during the next year and there will be good things said. To reach proper conclusions it may be necessary to read between the lines.

MUST HAVE HITCHING POSTS.

We will assume that satisfactory provision will be made for farmers to hitch their horses when they come into town. If such provision is not made, however, there will be strong opposition to the action of the city in excluding teams from the side streets.

To be sure nice streets are an ornament to the city but hitching posts, looked at from the standpoint of utility, are also pleasing to look upon and business houses will not look with favor upon any plan that may tend to inconvenience the country trade.

It is a little dreadful to contemplate what would become of the Peary Arctic Club if no one would venture to discover the North Pole.

A Good Hair-Food

Ayer's Hair Vigor, new improved formula, is a genuine hair-food. It feeds, nourishes, builds up, strengthens, invigorates. The hair grows more rapidly, keeps soft and smooth, and all dandruff disappears.

You need not hesitate about using this new Hair Vigor from any fear of its changing the color of your hair. The new Ayer's Hair Vigor prevents premature grayness, but does not change the color of the hair even to the slightest degree.

Formula with each bottle. Show it to your doctor. Ask your druggist. Ask the dealer in Ayer's.

SURPRISE MILWAUKEE EDITOR.

We had occasion to transact some business in Oregon City one day this week, and while there we saw something that shocked us very much. We entered a building to get something to drink, (it happened to be soda that time) when we heard a gentleman propose to the proprietor to shake dice with him for the treats, and the proprietor agreed to it. We didn't stay to see who won, we were so shocked.

BODY OF TALLEY FOUND.

Unfortunate Man's Remains Picked Up Near Jennings' Lodge.

The body of the late George A. Talley was found Friday morning floating in the Willamette River near Jennings' Lodge. The iron hook that was fastened to the stump of Talley's right arm was gone, indicating that the hook had caught some obstacle at the bottom of the river and held the unfortunate man fast, until the hook had gradually worked loose from the pressure of the current.

Talley was drowned Thursday, August 29, at Clackamas Rapids. He was returning from Portland in his gasoline launch and when he approached the rapids he ran in shore and was hauling the craft with a rope.

GOING TO STATE FAIR.

The annual pilgrimage to the State Fair from Clackamas County has commenced, and Wednesday's visitors were W. Cole, Frank White, and J. W. Woodard. Evermann Robbins came in Tuesday from Molalla and left on Wednesday for Salem, and Miss Iva Harrington, Miss Myrtle Toole, Miss Sedonia Shaw and William Mulvey went yesterday.

LESSONS FROM LABOR DAY.

W. W. Myers Says Consumers Must Pay the Bill at the End. OREGON CITY, Or., Sept. 1.—(Editor of the Courier)—Labor Day has come and gone. I would like to ask the wage earner what has been his gain. Did you attend the picnic at Willamette, or did you attend the Wild West show? Of your number not over 75 attended. We should have numbered 1000!

This day was set apart for you, not for lawyers, doctors, merchants and farmers, but the wage earner. The merchants, lawyers, doctors and farmers were in evidence but you were not. I hope that the wage earner of Oregon City and vicinity will not let this occur again. If there is any class that should show a solid front it is you. You should be organized to the man, not for strikes—(except at the ballot box)—but for education and the uplifting of your class.

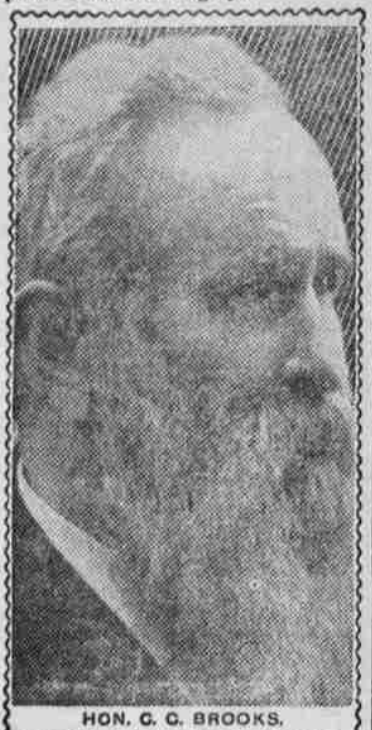

If you had been present and listened to your commissioner, Mr. Hoff, you or some of you at least would be the wiser. He certainly said many words of interest to your welfare. If he had been an orator, the address would have shaken the leaves from the grove, but he is a very plain man and with your interest at heart.

Mr. Editor, I started in to find fault. The good things about the picnic were many but I will mention those that are misleading and objectionable. Mr. Hayes delivered a fine flowing address such as is intended to catch the popular pulse. I will endeavor to take issue with him on the Income Tax.

In the first place, the tax has been declared unconstitutional and as a lawyer he should obey the mandates of

MAYOR OF SUNBURY Says Peru-na Is a Good Medicine.

Hon. C. C. Brooks, Mayor of Sunbury, Ohio, also Attorney for Farmers' Bank and Sunbury Building and Loan Co., writes: "I have the utmost confidence in the virtue of Peru-na. It is a great medicine. I have used it and I have known many of my friends who have obtained beneficial results from its use. I cannot praise Peru-na too highly."

HON. C. C. BROOKS.

There are a host of petty ailments which are the direct result of the weather. This is more true of the excessive heat of summer and the intense cold of winter, but is partly true of all seasons of the year.

Whether it be a cold or a cough, catarrh of the head or bowel complaint, whether the liver be affected or the kidneys, the cause is very liable to be the same. The weather slightly deranges the mucous membranes of the organs and the result is some functional disease.

Peru-na has become a standby in thousands of homes for minor ailments of this sort. The highest tribunal of our land, Mr. Hayes, the majority of that was of your own political party. Labor produces everything and the consumer pays the bill in the end.

No one can get away from these facts. Don't go away with the idea that if the capitalist or trusts are taxed excessively that they can't place that burden on the laborer and consumer. You know that they can and will.

Taxes thus obtained will surely lead to extravagance and graft. If you can fool the people with the idea that the tax comes out of the rich they will care little how and where the money is expended.

Taxes should be equally and justly levied, economically and honestly expended. Let us take the fine of \$29,000,000 on Standard Oil. Do you believe it will ever be paid? If it is, the company will cause the consumer to pay it back. Let me give you some figures. Say there is 29,000,000 families that use oil. That is just \$100 each, provided we each use the same amount of oil. How long do you suppose it will take the company to get that amount back and more and with the excuse to raise the price and price can be indefinitely kept up. The people will be the losers and the company the gainer in the end. A much better plan would be to say to the corporations "if you rob the people or violate the law we will condemn your property and take it under the law of eminent domain," which would be a legal, logical and just fine. The old foggy idea of taxing and fining the rich to get even for robbing the producer will be supplanted by justice.

W. W. MYERS. A Humane Appeal. A humane citizen of Richmond, Ind., Mr. U. D. Williams, 167 West Main street, says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at Howell & Jones' drug store. 50c and \$1.00. Trial bottle free.

Miss Eva Benson has resumed her classes in piano and will give instruction at the residence of R. L. Holman, commencing Saturday of this week.

FIRE IN COURT HOUSE.

Prompt Work of Sheriff Beatie Saves Building from Possible Destruction.

The possible destruction of the Clackamas County courthouse was averted Wednesday by the prompt and energetic action of Sheriff Beatie, who detected the odor of burning material in a small room where Jailor Nehren keeps his cleaning material. The sheriff kicked in the door and found a fierce blaze in the dustbin that is used on the floors. He seized the stuff and carried it out through the corridors and threw it on the lawn, where the flame was extinguished by Treasurer Padlock. It is supposed the blaze was due to spontaneous combustion.

Sad Incident On Trip. Mr. and Mrs. Fearing, of Columbus, Ohio, are in the city visiting Mrs. S. E. Miller, of Canemah, who is an aunt of Mrs. Fearing. The late Sebastian Miller was a brother to Mrs. Fearing's father. A sad incident in relation to their Western trip was the death of Mrs. Fearing's father. Mr. Fearing is a railroad man and is having his first vacation in 19 years. They have been having a most delightful time, until their arrival in Oregon City, when a telegram reached Mrs. Fearing announcing her father's death. She is prostrated over the sad intelligence.
