AFTER ELECTION.

Now that the smoke of battle has cleared away in Oregon City we are able to look at both sides of the issues involved in the city election and whether or not the result is just as we would have had we can probably bring ourselves to believe that since the majority has willed it the outcome may, in the end, be best.

This election emphasizes a wholesome truth that is too often lost sight of; namely, that the public must be taken into the confidence of those who seek the public suffrage. This means, too, that the public is entitled to time to deliberate and consider well their course of action.

The manner of presenting the charter amendments is subject to the same criticism. The substance of these amendments could have been laid before the people months before the pamphlet containing them was issued.

The marriage of Miss Linna Rainey to Mr. Robert Guttridge, both of Springfield, was solemnized at 5 o'clock Wednesday afternoon at the home of the First Presbyterian Church.

On Friday afternoon was a merry gathering of young people when Miss Dorothy Gray entertained a number of her young friends at her home in Green Point.

The initiative is a dangerous weapon and its use is easily subjected to a terrible abuse. To say that it is dangerous is not to say that it is without value.

It is a little remarkable that New York should have taken the solid course when its debacle consisted so very largely of water.

The Family Physician. The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill.

The Kaiser is going to High Cliff for an operation on his throat. If the story about the Windsor servants getting \$2,000 out of him in tips is true, he might need an operation on his leg as well.

Well, at least Grover Cleveland is not on record against accepting a third term.

At least the Department of Agriculture has not called on the boarding-house keeper to print the hash formula on the menu card.

The Pennsylvania car has decided not to reopen the Hartje case, so the disinfected can now be used for some other purpose.

A contemporary declares that the clearing house check has come to stay. Might good thing too, for it is more than any other brand of currency ever does.

YEAR IS SATISFACTORY.

Financial Situation Will Be Better Than Ever in the Northwest.

The live-stock industry has had a good year, the wool clip has been enormous, while fruit in 1907 has added to the wealth of Oregon and Washington at least 30 per cent more than during prosperous 1906.

The heavy movement of grain for the tremendous crop of the present year has been temporarily delayed by the financial situation, but is now on, and the months of November and December will make the record shipments of all history.

Building operations throughout Oregon and Washington have been with out precedent, and while there are numerous skyscrapers, office buildings and apartment houses, the building of homes has led.

The products of the farm and orchard are bringing the highest possible price, and that condition will be normal and that substantial prosperity will reign here within the next 90 days is absolutely assured.

WILLAMETTE MAY INCORPORATE

People of That Thriving Town Want a Government of Their Own.

The people of the little town of Willamette, who organized a Development League about one year ago are aspiring towards the honor of having a municipal government of their own, in order that they spend their hard earned money, or a portion of it, and share the good things and the bad things that come the way of the incorporated city.

Oswego was the last town to attempt to incorporate, but the county court made it clear that the town of daries established by the petitioners who became dissatisfied and threw up the sponge.

PROMINENT HOSPITALS SAY

PE-RU-NA IS EFFICIENT IN RELIEVING ALL CATARRHAL DISEASES.

SISTERS OF THE GOOD SHEPHERD, MONTREAL.

HOSPITALS ALL OVER THE CONTINENT FIND PE-RU-NA VALUABLE IN TREATING ALL CATARRHAL DISEASES.

CATARRH of the respiratory organs is a common ailment in Canada for at least two-thirds of the year. This condition is no doubt caused by the long, severe winters experienced in this part of the continent.

Therefore, when Peruna was discovered by Canadian people to be a reliable remedy for these catarrhal diseases, it at once became a popular medicine, not only among individuals and in families, but in the great hospitals, where it was used as a preventative and relief in hundreds of cases.

These institutions do not hesitate to give their endorsement of the remedy which has been so helpful in the treatment of their poor and sick.

Among these institutions is that of the Sisters of Good Shepherd, who gave the following endorsement: The Peruna Company, Columbus, Ohio.

Having used Peruna for the past few months, for our sick and poor, we are happy to say that it has given us great satisfaction.

The Sisters of the Good Shepherd, Montreal, Nov. 7, 1903. We found Peruna a relief in several cases. We can say it is a good tonic and we are very thankful.

When catarrh once fastens itself upon the system it becomes an obstinate disease to eradicate.

A systemic remedy—one that reaches every internal organ of the body—is an absolute necessity.

Peruna is just such a remedy. It searches out the cause of the disease, healing and strengthening the mucous membranes, and thus giving Nature an opportunity to perform her part of the restorative process.

One of the many hospitals which have found Peruna of value in treating old and obstinate cases of catarrh is the Hospital St. John, who writes, as follows: "We are happy to tell you that your Peruna has given us satisfaction.

After a continued use of the remedy, this institution has found no reason to change its good opinion of the remedy and expresses its satisfaction in the following terms: "Before the treatment I could not walk for a quarter of an hour without experiencing much fatigue.
